## Increasing Raiding by German U-Boats Probable in Spring

However, Naval Experts  
Say Weather Will  
Work Both Ways

Washington, March 31—(AP)—German U-boats, which have averaged a ship a day in American waters this month, can be expected to intensify their raiding in the weeks ahead as the weather becomes more favorable.

But better weather will work both ways, naval experts said, explaining that it would be equally favorable for air and surface anti-submarine operations, with a resultant heavier destruction of raiders.

The experts asserted that the nazis almost certainly had not reached the full power of their long distance undersea offensive against coastal shipping and that in increased number of submarines probably would appear in American waters in the near future.

To offset this admittedly gloomy prospect, however, these authorities cited increasingly effective anti-submarine measures, including:

### Anti-U-boat Measures

1. Assignment of more and more patrol planes and blimps to the eastern sea frontier command of Rear Admiral Adolphus Andrews, who only last week was given unified control of army as well as navy aircraft engaged in sub hunting.

2. More general adherence by merchant ship skippers to the navy regulations that vessels traveling in coastal waters at night should run without lights and, day or night, should stick to patrolled lanes.

3. Partial blackouts of the hereofore brightly lighted sections of the coast which are believed to have aided the U-boats by silencing their targets.

The German submarines began prowling along the eastern coast a mid-January and in the last half of that month attacked 11 ships, according to an unofficial compilation of navy department announcements. All but one of these was sunk.

### Ship A Day This Month

This same compilation, which does not include sinkings that for various reasons of naval policy may not have been announced, showed 16 ships attacked and sunk during February and 31 sunk out of 35 attacked during March. These figures in themselves indicate the possibility that the nazis

### Three Railroad Men Killed by Explosion

Redkey, Ind., March 31—(AP)—The engineer, fireman and brakeman of a west-bound Nickel Plate railroad freight train were killed today by the explosion of the locomotive boiler east of here.

The dead were identified by coroner Donald Spahr as E. L. Enner, engineer; W. M. Herschberger, the fireman, both of Lima, and J. E. Schletter, the brakeman, of Frankfort, Ind.

The coroner said he had reports the water level in the boiler was low.

The engineer was blown 100 feet from the locomotive. The fireman's body was found in the locomotive cab and the brakeman's body was found four cars back of the engine.

## The War Today!

By DEWITT MACKENZIE  
Wide World War Analyst  
(Telegraph Special Service)

We talk a lot about Hitler's spring attack along the Russo-German front, as though it were an event which would arrive on schedule like the 5 o'clock express, but actually the fuhrer and Muscovite Stalin are already ironing out their differences in a series of bloody battles whose outcome will vitally influence the trend of the much-heralded offensive.

What is going forward now is a series of ferocious encounters for control of key positions which the nazi chief now holds and needs as spring-boards (no pun intended) for his grand offensive. If you please will glance at your maps of the fighting front we will name these strategic points upon which so much depends.

Beginning at the north, the nazis are hanging on by their teeth in the Leningrad sector, where the Reds have hammered them back. Remember how some seven months ago Hitler boasted that he had in a sack this great industrial city which is at once the gateway to the Baltic and heart of Communism?

Southward lies Staraya Russa, where the Bolsheviks have what is left of a nazi army surrounded and in sorry state. Below and opposite Moscow you will see Rzhev and Vyazma, which lie unhappily within a deep salient and are threatened with encirclement. Next we have Orel, Kursk and Kharkov—the latter two-thirds surrounded by the Reds—strong points in the line protecting the nazis in the Ukraine. Below this trio a great Russian salient reaches out towards Dnieperopetrovsk and then swings back to Stalino.

And finally there is Taganrog, German key position on the Sea of Azov along the route to the golden Caucasus. It is into the Caucasus that Mother Hubbard Hitler would go in search of oil for her badly lowered crust, and

## Things Looking Up on That Idea of Increased Pay for U. S. Fighting Men

Washington, March 31—(AP)—Hey, soldier, things are looking up on that idea of boosting your pay to \$42 a month.

The senate voted yesterday to double the \$21-a-month basic pay of army buck privates but at least a fortnight and possibly much longer will elapse before the house begins action on the legislation.

The house is in what virtually amounts to an Easter recess and there appeared little likelihood today that the military affairs committee would start hearings on the pay increase bill before April 13, at the earliest.

As passed in the senate by a vote of 73 to 0 yesterday, the measure would make the first basic change in the army pay scale in 20 years.

In addition to doubling the initial rate for privates, the bill pro-

poses increases all along the line for enlisted men in both the army and navy. In the army a master sergeant, the highest non-commissioned classification, would receive \$138 a month instead of \$126. Chief petty officers in the navy would receive similar increases.

The measure, sponsored by Senator Johnson (D-Colo.) also would raise the basic pay of second lieutenants and navy ensigns from \$1,500 to \$1,800 annually and add just allowances for other personnel in the army, navy, marine corps, coast guard, geodetic survey and public health service.

The additional cost to the government, based on the size of the army at the start of the year, was estimated by Senator Johnson at \$282,412,000. Majority Leader Barkley of Kentucky said the cost might rise much higher, however, as the armed forces grow.

Washington, March 31—(AP)—W. S. Farish, president of the Standard Oil Company (New Jersey) described today as without "a shadow of foundation" testimony that the company had prevented or delayed development of synthetic rubber in the United States.

"The facts and the record," he told the senate defense investigating committee, "are exactly to the contrary."

Farish appeared before the committee to reply to testimony by Thurman Arnold, assistant at-

## Father of Slain Baby Boy Sought

Allentown, Pa., March 31—(AP)—Police Chief Arthur V. Yohe asked police in three states today to search for the father of a two-year-old boy whose hacked body was found hanging from a water pipe in the cellar of his home.

Yohe said Mrs. Ralph Gavnork found the body of her son, Edward, last night when she returned home after spending several hours at a hairdresser's. A stained axe lay near the body. The body was badly cut on the face and neck.

A note, which Coroner Alexander M. Peters of Lehigh county said he found on the body, read: "All I could bring is hell to anybody. My wife is the best in the world and the boys' (correct)."

Mrs. Gavnork said her husband, a 35-year-old railroad employee, had not worked for two days because of illness. Yesterday, she said, he told her "why don't you go to the hairdresser today and don't come back until 9 o'clock."

She said he gave another son, Bobby, 10, money to go to the movies. Mrs. Gavnork told police the door was barred when she returned home. When she forced her way into the house she found a note which read "the baby will go to heaven, thank God. I cannot explain."

# United Nations' Position in Burma Fighting Critical--- Japs Bomb Bataan Base Hospital

## Relentless Spring Offensive Pressed by Russian Armies

Batter Heavily at Nazi  
Key Position Along  
Whole War Front

(By The Associated Press)  
Russia's armies, pressing a relentless spring offensive amid the thawing snows of winter, were reported battering heavily at key German bases along the entire front today while the nazi high command claimed aerial successes and the destruction of 183 soviet tanks between March 23 and March 30.

In the battle to keep allied supplies pouring into the U. S. S. R. the British Admiralty reported that British and Russian naval forces crippled a German destroyer and drove off attacks by nazi surface craft and U-boats Sunday while escorting a convoy to Russia.

Three German submarines were severely damaged "if not sunk," the Admiralty said, while a British cruiser and a destroyer were damaged but reached port safely. The Russians reported new important successes before Leningrad, where the soviet army, striving desperately to open a land route with the Russian interior, was said to have started rolling up the German and Finnish forces along the whole front.

The soviet radio reported the capture of an "important strategic point" in the Leningrad area. It did not name it, but it was known that the Russians had long been attempting to isolate or recapture Schlussemburg, east of Leningrad on Lake Ladoga.

May Open New Line  
Liquidation of the German resistance at this point would open a new rail supply route for the Russians, who have been depending all winter on material transported over the frozen lake.

German field headquarters acknowledged severe Russian pressure in the Ukraine, on the central (Moscow) front, and in the far north, but asserted that nazi dive-bombers had "frustrated" a tank-led soviet attack in the critical battle around Lake Imen.

The high command described the dive-bombing assault as taking place "northeast of Lake Imen," presumably referring to the Staraya Russa sector where the German 16th army has been trapped for many weeks.

Soviet front-line dispatches said Red army cavalrymen, attacking in the same region northwest of Moscow, beat off a stiff German attack, forced the nazis to retreat and seized an important populated place.

A bulletin from Adolf Hitler's headquarters said German bombers again attacked the soviet Arctic supply port of Murmansk, and claimed three British bombers were shot down "in an attempt to fly by night into occupied Norwegian territory."

Steadily Growing Battle  
Other dispatches indicated a steadily growing battle along the United Nations' far north supply route to Russia.

The Berlin correspondent of the Swiss newspaper, La Suisse, said that the German fleet and air force were facing serious problems in Norway and Finland, and that a United States-British convoy had been able to continue its voyage despite nazi air attacks.

"The increased protection of these convoys has immobilized a large number of German air units in Norway, and has necessitated the reinforcement of the army of occupation in Norway and the air force in Finland," said the Berlin account.

The German high command said

## Japs Start Germ War; Bomb China With Deadly Bubonic Plague

Chungking, China, March 31—(AP)—A Chinese Government spokesman at a press conference today accused Japan of starting germ warfare and said full information on the charges would be formally transmitted to United Nations Governments.

An investigation by noted foreign and Chinese medical experts had established that a Japanese plane on Nov. 3 dropped infecting material at Changteh in Honan Province which caused the death of six persons by bubonic plague, the spokesman said.

The findings of the experts had been unanimous, he declared.

## Hamilton County's Prosecutor to Ask for State Militia

McLeansboro, Ill., March 31.—(AP)—Sheriff S. H. Shepard, 68, and two other men were beaten, two of them severely, by what State's Attorney M. E. Buck described as "a mob of union men" in a labor dispute about six miles west of this city late yesterday.

Buck said he expected to confer by telephone with Governor Dwight Green today to request state militiamen to prevent a repetition of the violence.

Meantime, charges of assault with a deadly weapon and resisting an officer were filed against Evan Dale of Macedonia, a union leader, Sheridan Wheeler and Medley Flanigan, both of McLeansboro, and Sheriff Shepard appointed his brother, Clyde, a former mayor of McLeansboro, as a special deputy to serve the warrants on the three men.

The scene of the trouble was a railroad sidetrack where pipe was being unloaded for the construction of the Texas Company's \$3,500,000 refinery in the Hoodville oil field. Prosecutor Buck said a crew of workmen who were to unload the pipe were interfered with by the union men, "numbering 200 or more who were armed with machine guns and other weapons."

Sheriff Shepard attempted to settle the trouble but was knocked from the side of a railroad car, disarmed, beaten and trampled by the union men, the state's attorney said.

### Two In Serious Condition

The other injured were Herbert Powell of Salem, 34, a contractor in charge of the work, who said he was jerked from his car and struck with a black jack; and Chester Willmore of McLeansboro, an employee of Powell, who was attacked on top of one of the railroad cars. Willmore and Shepard are in serious condition in a McLeansboro hospital with head injuries. In addition, the sheriff has a broken hand.

The union men, from Franklin, Williamson, Saline and other southern Illinois counties as far south as Alexander, left the scene after the violence and residents of Dale took the injured men to the hospital.

The state's attorney said the union men, described as members of a common laborers union, A. F. L., had objected to the use of non-union labor in unloading the pipe. Because it was a special kind of pipe requiring experienced handling, the employers of the workmen offered to let them join the union and proposed to pay their union fees, the prosecutor continued, but the offer was declined on the ground that union members with seniority would have priority claims to the work.

## Auto Thief Wrecks Car; Abandons It

An automobile thief experienced a narrow escape about midnight while speeding along the Black Hawk Trail with a stolen automobile taken in Dixon. Shortly before 12 o'clock last night, police received a report that a car had been taken from a parking space on the west side of the Newman Bros. garage on Ottawa avenue and East River street.

A description of the car was broadcast over the state police radio system and a short time afterward, Sheriff Jim White of Oregon notified the Dixon police that he had the car in his possession. The machine had skidded off the highway near Oregon and crashed into a ditch where the driver abandoned it. The car which was reported to have been damaged considerably, was hauled to an Oregon garage.

## The Weather

TUESDAY, MARCH 31, 1942  
Chicago and vicinity: Little change in temperature this afternoon, tonight and Wednesday forenoon; lowest temperature tonight somewhat below freezing; light to moderate winds.

Illinois: Not much change in temperature this afternoon, tonight and Wednesday forenoon; frost in extreme south portion tonight.

### LOCAL WEATHER

For the 24 hours ending at 7 a. m. today—maximum temperature 40, minimum 32; cloudy; precipitation .01 inches, total for year to date 3.96 inches.

Wednesday—sun rises at 6:45, sets at 7:35 (Central War Time).

## Infirmary, Plainly Marked, Avoided by Japs Until Monday

Number of Casualties Reported; Manila Forts  
Attacked From Air

Washington, March 31—(AP)—The war department reported today that a base hospital in Bataan was bombed by the Japanese at noon yesterday, causing a number of casualties.

Plainly marked, the hospital had been avoided carefully by enemy bombers until yesterday, the department said.

Heavy aerial bombardment of the Manila Bay harbor defenses, accompanied by fire from enemy shore batteries, continued day and night, a communique said, but little damage has been inflicted, and a battery firing from Fort Hughes hot and destroyed an enemy launch in Manila Bay.

The text of the communique, No. 169, based on reports received here up to 8:30 a. m., CWT: "1. Philippine theater: 'Except for sharp clashes between patrols, there was no ground fighting in Bataan during the past twenty-four hours. The enemy continued aerial bombardment of our front lines and rear areas. At noon on March 30, a base hospital in Bataan was bombed by the Japanese, causing a number of casualties. This hospital was plainly marked and had been carefully avoided by the enemy bombers until yesterday.'

"Both day and night raids on our harbor defenses continue intermittently. Thus far little damage has been inflicted. The day raids yesterday were accompanied by fire from enemy shore batteries in Cavite province. The guns of our forts returned to fire. A battery firing from Fort Hughes destroyed an enemy launch in Manila Bay."

## Illinois Railroads In Appeal to Interstate Commerce Commission

Chicago, March 31—(AP)—Illinois railroads, denied permission to increase immediately intrastate freight rates from 2½ to 6 percent by the Illinois Commerce Commission, have appealed to the Interstate Commission.

The state commission announced yesterday it was advised the appeal to the interstate body had been made last Saturday by 69 railroads asking the latter group to take charge of freight rates within the state.

The state commission refused to grant immediate increases Thursday, announcing that new tariffs would be suspended for six months or until the commission had been able to hold hearings on the question. Increases on interstate shipments were approved several weeks ago by the interstate commission.

Attorneys for the petitioning roads said their appeal asserted that failure to make higher tariffs effective immediately was unfair to railroads and shippers.

In an order issued yesterday, designed to speed the conversion of small utensil factories to war production, WPB forbade the making of a long list of electrical devices, including waffle irons, percolators, portable heaters, dry shavers and roasters, after the end of May.

The order affects a \$60,000,000 a year industry employing 25,000 workers.

### Other Prohibitions

In other orders, the board forbade the use of slide fasteners made of copper, steel or zinc on such items as coats, sweaters, billfolds, and swim suits; prohibited the use of metals other than gold and silver in caskets and burial vaults (except for hardware

## Signs Indicating Speed Over Forty Miles an Hour in State Come Down

Removal from state highways of all signs indicating speed limits of more than 40 miles per hour has been started by the state division of highways, at the request of Governor Dwight H. Green, Wesley W. Polk, chief highway engineer, announced today.

Decision to remove the markers was reached after a conference between Polk and T. P. Sullivan, director of Public Safety, to discuss establishment of a 40-mile speed limit in accordance with the request of Governor Green and chief executives of other states received recently from President Roosevelt.

Approximately 2,000 signs will be taken down by field crews of the highway division. The markers to be eliminated include 45-mile signs principally in suburban districts adjoining municipalities and numerous 45 and 50-mile warnings posted in advance of curves.

Because there is no state speed law, Governor Green has asked the motoring public to cooperate with the 40-mile limit program as a patriotic duty. For the present, automobile drivers found exceeding that rate will be warned by state highway police who are empowered, however, to make arrests in such cases on charges of reckless driving.

## Control of Indian Defense May Prove Death of Parleys

New Delhi, March 31—(AP)—Growing indications that the British proposal to grant India dominion status might break down over the British insistence on retaining control of India's defense during the war came today from the All-India Congress executive committee and other sources.

Mohandas Gandhi's son Devadas wrote in the Hindustan Times that the defense issue might cause the congress, dominant political party of the great sub-continent, to reject the offer Sir Stafford Cripps brought from the British government. The younger Gandhi said opposition was strong in the congress.

Sir Stafford has stated emphatically at a press conference that there would be no revision in Britain's decision to retain defense control during the war.

An atmosphere of depression grew tonight as a result of a general feeling that the conferences would prove unsuccessful. The feeling extended even to Sir Stafford who told his press conference that he was holding his remaining interviews at an accelerated pace and that they were becoming slightly exhausting.

The belief that opponents to the Cripps plan in the congress would prevail grew following upon reports that C. R. Rajagopalachari, a former congress president, had expressed disappointment over the defense formula. He previously had been reported favoring a compromise.

The younger Gandhi's article, which presumably reflected the Mahatma's views, said the party "was bewildered that one so sen-

## Chinese Hold Firm But British Admit Serious Situation

Invading Japs Within  
Ten Miles of Prome,  
Strategic City

By ROGER D. GREENE  
Associated Press War Editor  
Chinese headquarters declared late today that more than 5,000 Japanese troops had been killed in bloody fighting around Toun-goo, on the left flank of the allied line in central Burma, while on the other end of the front, the British admitted a critical turn in the struggle.

Previous reports had listed 18,000 Japanese troops engaged in the Toungoo sector, where the invaders apparently had wrested control of at least half the town from Chinese defenders.

Heavy fighting is still raging around the town, a Chinese communique said, adding that Chinese soldiers had recaptured the Japanese-held airfield at Kyungon, 10 miles north of Toungoo. A whole Japanese battalion was reported annihilated there.

On the right flank, Japanese columns driving toward the oil fields of northwest Burma and the gateway to India were acknowledged to have advanced within 10 miles of Prome, supported by traitorous Burmese natives.

Prome is the British-held anchor on the right wing of the allied defense line in central Burma.

### City Is Important

The city is strategically important as a barrier to the rich Yenangyaung oil fields, and also guards the Irrawaddy river route to Mandalay.

A British communique said the Japanese penetrated to Shwe-daung, 10 miles below Prome, in heavy fighting in which Imperial Indian frontier troops inflicted 300 casualties and captured 70 prisoners.

On the left flank, Chinese dispatches said Chinese reinforcements moving south to aid Lieut. Fen. Joseph W. Stilwell's hard-pressed forces had occupied a railroad station 10 miles north of Toungoo and had made contact with Chinese troops still holding out in the eastern part of Toungoo.

A Chinese army spokesman said 10,000 Chinese soldiers were holding the eastern part of Toungoo against 18,000 Japanese in the western sector.

### Other Developments

Other developments in the Far Pacific theater included: Philippines—A war department bulletin reported that Japanese planes attacked a base hospital in American-defended Bataan peninsula, inflicting a number of casualties. The hospital was plainly marked.

The communique said heavy aerial bombardment of Manila Bay fortresses, accompanied by fire from enemy shore batteries, continued day and night, causing little damage.

On Bataan, sharp patrol clashes were reported, but there was still no sign of the threatened all-out Japanese offensive against long-besieged American and Filipino troops.

India—British negotiations to mobilize India's 390,000,000 as a fighting force on the side of the allies met serious new difficulties. Dispatches from New Delhi said it appeared that the dominant Indian party might reject the British plan for self-rule.

Japan—The Rome radio quoted Imperial Tokyo headquarters as saying a Japanese submarine operating in the Indian ocean attacked a British convoy east of Ceylon.

Australia—United Nations aircraft fired buildings, damaged hangars and plitted runways of the airfield at Japanese-occupied Lae, New Guinea, in a high level attack through difficult weather yesterday, a Melbourne communique said.

# Of Interest to Farmers

## Soybean Crop Will Play Very Important Part in Production

### All Available Seed Will Be Needed for State's Expanded Program

The 1942 soybean crop will play a very important part in Governor Dwight H. Green's "all-out-production" in the national defense effort and all available seed will be needed to reach the revised production goal for Illinois which has just been announced at 3,703,000 acres, an increase of 35 per cent over the 2,743,000 acres planted for all purposes in 1941. This increase is due to the government designating soybeans as an essential war crop to maintain the needed supply of fats and oils and to the guaranteed minimum price of \$1.60 per bushel, farm basis, for No. 2 yellow beans of recognized varieties and oil content.

Of the total acreage planted last year 2,885,000 acres, or 83 per cent, was harvested for beans. The present outlook is that the proportion of the total to be harvested for beans this year will be slightly larger than last year; thus the previous government acreage goal of 2,900,000 acres may be exceeded by 2,900,000, according to the revised acreage which has just been released.

The Commodity Credit Corporation has guaranteed farmers a minimum price of \$2.00 per bushel at the farm for beans for sowing purposes, testing 15 per cent moisture or lower, and 85 per cent germination or better. This guarantee expires April 10.

Soybean products will continue to supply, as no vegetable ever did before, the necessary oil and protein concentrates to feed the armies of the allies. Farmers of Illinois are making up the loss of oils that formerly came from the Philippines, and these seeds of victory will soon be sown.

Illinois ranks first in the United States in growing this wartime commodity as farmers in this state produced 49,128,000 bushels of soybeans last year, being 46 per cent of the entire crop grown in this country.

Howard Leonard, director of the State Department of Agriculture, was informed today by Charles H. Keltner, superintendent of the Division of Plant Industry, that every effort is being made by the Illinois State seed laboratory to provide producers and seedsmen with the viability and purity of soybean stocks on hand.

"Records of samples submitted indicate a fairly wide distribution of individual lots of beans testing better than 85 per cent. Beans in these lots of excess of the planting

## Planting Dates For Gardens Are Listed by U. of I.

Urbana, Ill.—Since it's almost gardening time again, Lee A. Somers, extension vegetable specialist of the University of Illinois College of Agriculture, has announced a list of recommended planting dates.

Suggested victory garden planting dates in Illinois for the five classes of vegetables follow:

1. Perennial crops such as the crowns of asparagus, the root divisions of rhubarb and the bulb-lets of winter onions, although sometimes planted in the late fall, are usually best planted in the early spring—March 20 to 25 for southern Illinois, April 1 to 5 for central Illinois, and April 15 to 20 for northern Illinois.

2. The cool-season, quickly maturing crops should be planted the same dates as perennial crops. These include radishes, leaf lettuce, green onions from sets, spinach, turnips, kohlrabi, mustard and peas. They will germinate in cool soil and will grow rapidly in cool weather, not being injured by moderate freezing. They must reach edible maturity before the heat of summer or their quality will be poor. Hence they should be planted as early as possible.

3. For cool-season crops that endure summer heat, such as transplanted cabbage, cauliflower, broccoli, head lettuce and seeded carrots, beets, parsnips, parsley, New Zealand spinach and Swiss chard, planting dates are April 1 to 5 for southern Illinois, April 15 to 20 for central, and May 1 to 5 for northern Illinois.

5. The definitely warm season crops, such as tomatoes, peppers, eggplant and sweet potatoes, are transplanted crops, and lima beans, cucumbers, muskmelons, summer squash, winter squash, pumpkins and watermelons are directly-seeded crops that may be planted between May 1 to 5 in southern Illinois, May 15 to 20 in central Illinois, and June 1 to 5 in northern Illinois.

requirements of the communities in which these local lots are found will move into the regular seed distribution channels." Keltner said, "and increase the quantity of seed stocks now regarded as available. Continued sampling and testing of soybeans moving to the mills will permit further segregation of these lots that are desirable for seeding purposes."

"Since the first of the year over 2,500 samples of individual lots of soybeans have been submitted to the Illinois laboratory for testing. Reports are being mailed daily as rapidly as the present laboratory capacity will provide.

## FRANK PRIEBE'S WEEKLY LETTER to POULTRY RAISERS

An admirer and a general refusal to recognize the possibility of a Japanese attack, followed routine procedures, and went their own independent ways to disaster at Pearl Harbor.

Another general, who had the foresight to anticipate what might happen, planned ahead, organized and trained an army, fought—when the time came—with tactics adapted to the territory, and stood off the invaders at Bataan.

Today he is in Australia, having broken through the enemy's lines in torpedo boats—boats that navy officials had frowned on because they weren't like any other boats in the fleet, but which he had insisted on having because they were particularly adapted for use in waters around the Philippines.

Our failures in this war have resulted from lack of foresight, lack of planning, and stubborn insistence on doing things the way they have always been done, regardless of changing conditions. Our successes, on the other hand, have been the result of foresight, planning, and a willingness to change those plans the minute the situation required it—flexibility!

The same factors that make for success or failure in military operations determine results in industry and agriculture.

### Poultry Industry Flexible

The very nature of the poultry industry should make it flexible. And yet I know of no industry where there is such a stubborn refusal to recognize changing conditions and revise our strategy accordingly.

Producers, processors and distributors alike applaud MacArthur and still fail to see how the principles underlying his success must be applied in our own field if we are to avoid disastrous results.

This week four carloads of fresh chickens arrived in Chicago—shipped here from the Dal-Mar-Va peninsula. Five or ten years ago we would have refused to admit the possibility that such a thing could happen. But there were some producers down on the Atlantic coast who weren't put off by our blind belief that the Middle West was the only place where chickens could be raised—a belief which has made us satisfied with outmoded methods of production.

There was a time when Pacific coast eggs were the dominating factor in the New York market. But for every hundred cars they shipped out of California ten years ago, last year they shipped only three. Why? Look at San Diego, for example. It has mushroomed from 125,000 to 360,000. That means an increased demand for more eggs right on the coast—and there are fewer producers because many people have gone from the poultry houses into plane factories.

The government is encouraging southern farmers to raise more chickens and, as I pointed out a week ago, they aren't likely to sell their flocks the minute the emergency is over.

These are changing conditions and we can't afford to overlook them.

### Don't Miss Opportunity

For years poultry packers have had the mistaken notion that they were obligated to pay for any chicken that had feathers on it, regardless of its condition. Now they are waking up to the fact that this practice was putting the skids under the entire industry because it lulled too many people into thinking there was no need to improve the quality of poultry—no need to progress.

Butchers felt that cutting off

## Homemade Ways Of Testing Soys Suggested by U. I.

Urbana, Ill.—Two simple home tests to determine the germination of soybean seed can be made by farmers themselves, according to J. C. Hackleman, crops extension specialist of the University of Illinois College of Agriculture. The state seed testing laboratory at Springfield now has requests for tests than it can make, he reported.

One satisfactory method, according to Hackleman, is to put the seed in a box or pan containing two to three inches of soil, or preferably screened sand, which has been moistened with hot or warm water. The beans are planted at a depth of 1 to 1½ inches and the sand is leveled over the seed. It is necessary to keep the box in the house where the temperature will be approximately 70 degrees during the day but may drop to 50 or 60 degrees during the night. Care should be exercised to prevent the room from getting too cold at night and too hot in daytime. The soil or sand in the box should be moistened whenever the top layer gets dry, probably about twice a day. About seven days are required for the seed to germinate.

The other type of germinator is the rag-doll tester, which can be made with paper toweling. The toweling is placed on a strip of water-proofed or oiled butcher's paper or on several thicknesses of newspaper the width of the toweling. It is then sprinkled thoroughly and the soybeans placed on it. Next the paper toweling and the butcher paper or newspaper are wrapped around a small core ¼ to 1 inch in diameter. This core may either be a wire or some porous or open material—a corn cob may be used. Rubber bands or string are put around the doll firmly but not tightly in three places.

This rag doll is then soaked in warm water for two to four hours, after which it is placed in a standing position in a box or container where the temperature and humidity are maintained fairly uniformly. The doll may be immersed in warm water for a few minutes each day or a wick may be rolled up in the rag doll in order that its end can extend into a pan of water.

Several of these rag dolls can be placed in a receptacle such as a box or lard can with a false bottom. Underneath this false bottom is a pan of water and an electric light bulb, which is kept burning for warmth. Moisture which evaporates from the pan together with the warm water which will work up the wicks will keep the dolls moist. At the end of six or seven days the germination may be read.

the heads and feet and drawing the chickens was their business and many of them, resenting what they regarded as an infringement of their rights, have refused to handle quick frozen packaged chickens. Or, having always sold chickens whole, they decided that selling it by the piece was only a nuisance. But consumers like to buy it by the piece or packaged and dealers who see the trend and are falling in with it are getting more and more of the poultry business.

This industry has never had a greater opportunity than it has today. I only hope we see it!

## Ogle County Farm Bureau News Notes

The annual Ogle County 4-H club rally will be held at the Oregon coliseum Saturday evening, April 11, according to information from the Farm Bureau office. Both the agriculture and home economics clubs will be included who are under the supervision of the farm adviser and home adviser and they will carry on a program in charge of members chosen to be responsible for the events which will include musical numbers, stunts, games and refreshments.

Club members will invite their parents and friends to attend this meeting which is an opening event of the 1942 4-H club program.

Enrollments now coming in to the Farm Bureau and Home Bureau offices indicate a larger membership in club work this year. Emphasis is being placed upon garden projects in which the members will have a part in producing an adequate food supply during this time of emergency. Adviser Warren states that now is the time for boys and girls between ages of 10 and 20 to apply for 4-H club membership.

Word has been received at the Ogle County Farm Bureau office from the state soil conservation district board approving the organization of a permanent soil conservation district association in Ogle county. The state board has appointed F. F. Coffman, German Valley and L. B. Swingley, Oregon as temporary directors authorized to apply for incorporation of the county association. As soon as articles of incorporation are received a full board of directors will be elected and a program of work will be laid out to assist Ogle county farmers with problems of soil conservation.

Ogle county Farm Bureau has been advised by the agronomy department of the University of Illinois that the hybrid corn performance test plots will be continued in Ogle county even though many of them have been dropped throughout the state in an effort to reduce expenses and save traveling.

Plots this year, it is said, will include only varieties having open pedigrees and will be conducted more as a research project. The names of the varieties will be known and the characteristics of growth may be studied during the season which was not possible before when variety names were not given on account of closed pedigree varieties being included in the plot.

## Egg Increase May Be Cause of More Poultry Diseases

Urbana, Ill.—The dangers of poultry diseases accompanying a boost in egg production during the coming months are stressed by animal pathologists of the University of Illinois College of Agriculture.

The keeping of older birds for increased production, such as those older than 12 to 18 months, means that the poultryman must take greater precautionary measures in flock management and sanitation to prevent the spread of tuberculosis.

Tuberculin testing and rigorous culling should precede the selection of birds to be retained for an additional year, the pathologists advised.

Leucemia is another disease that may also increase in farm flocks as production is pushed this year. Birds showing a tendency to become pale around the wattle and comb, those with lameness or leg paralysis and birds with gray eyes should immediately be removed from the flock.

## "Hybrid" Doesn't Mean Anything in Seeds Except Corn

Urbana, Ill.—The word "hybrid," unless applied to corn, is just a "catch word" to help sell poor quality seeds, believes L. V. Sherwood, agronomist at the University of Illinois College of Agriculture.

"It doesn't mean a thing in oats, wheat, barley, soybeans and a lot of other seeds," he said.

The best thing is to check with reliable persons on available varieties and recommended sources of seed, Sherwood advises farmers. Farm advisers and the agronomy department of the College of Ag-

riculture have information on many recommended varieties.

A safe way to handle the noxious weed problem is to send a small sample to the State Department of Agriculture in Springfield for a free analysis. There is no charge for the first five samples sent in by each person.

The main things to consider in buying seed, as listed by Sherwood, are:

(1) Choose a high-yielding, well-adapted variety; (2) use plump, bright, clean seed—it's more likely to be disease free and yield

well; (3) avoid sowing noxious weed seeds, and (4) buy from reliable dealers. Beware of "hybrids" except in corn, and then be careful.

Cotton consumed by American mills in 1941 reached a total of 5,207,000 pounds as compared with the previous peak of 3,961,700,000 pounds in 1940.

Sixteen states have had to make changes, adding or subtracting one or more seats in congress, following population shifts revealed by the 1940 census.

## CORINTHIAN SHRINE INSTALLS NEW OFFICERS; APPROXIMATELY 200 GUESTS WITNESS RITUAL

Spring colors of yellow and white glorified the lodge room of the Corinthian Shrine last evening, when recently elected officers of the shrine, No. 40, White Shrine of Jerusalem, were installed in an impressive formal ritual that was open to the public. Two-hundred or more members and guests turned out for the event, including worthy high priestesses from Rockford, Freeport, Morrison, Princeton, Mendota, and DeKalb shrines, and guests from Polo, Rock Falls, and Sterling.

The white emblematic shrine cross and crook in a spring-like setting of gladioli and potted jonquils greeted the view of the huge throng that witnessed the seating of officers for 1942-43. Interpersed with vocal and instrumental music, words of greeting and appreciation, and presentation of jewels, the ceremony ushered in another year for the local shrine.

The presiding officers were Mrs. Claude Hobbs, worthy high priestess, and Orville Dodd, watchman of shepherds. The new officers were installed by Mrs. Carrie Coe, past worthy high priestess, who served as installing officer; Mrs. Leola Tennant, worthy chaplain; J. E. Barrowman, worthy scribe; Mrs. Alma Coss, worthy herald; Mrs. Kathryn Calhoun of Sterling, worthy organist; Harold Coss, worthy guard; Mrs. Nellie Hearhart, installing herald.

Mrs. Elmira Forsell of Oriental Shrine, Rockford, a district deputy, was guest of honor. As she was escorted to the east, she was presented with a colonial bouquet of weeping willow from the shrine.

Miss Gertrude Youngman, the new worthy high priestess, was wearing a formal gown of pink affeta, and was presented with a bouquet of pink roses. Escorts or Miss Youngman, a past matron of Dorothy chapter, O. E. S., were members of the chapter's Past Matrons' club, including Mesdames Nellie Gearhart, Edna Quirk, Leila Bush, Frances Marks, Mildred Beier, Fannie Ware, Ruth Emmert, May Keller, Geraldine Palmer and Florence Bastian, who owned an archway of gladioli above the new presiding officers as she approached the altar. Later the flowers were placed at the foot of the dais.

As Miss Youngman knelt at the altar, Leone Ort Mills sang a solo, "God's Perfect Stillness" (Mann). Later, Mrs. Mills sang "The Fool Hath Said There Is No God" (Geoffrey O'Hara), and "O Lovely Night" from "The Summer Night's Dream." Mrs. Myrtle Bishop accompanied the soloist at the organ.

Other officers installed were: Watchman of shepherds, Fred Huebner; noble prophetess, Miss Ruth Fuhr; associate watchman of shepherds, Clyde Smart of Sterling; worthy scribe, Miss Frances Patrick; worthy treasurer, Mrs. Frances Schrock; worthy chaplain, Mrs. Frances Swartz; worthy shepherdess, Mrs. Madeline Quire, Rock Falls; worthy guide, Mrs. Flora Stitzel, Nelson; worthy herald, Mrs. Eula Wilson; second wiseman, Roger Wilson; second wiseman, Lloyd Emmons, Rock Falls; third wiseman, Lloyd Lewis; king, Glenn Coe; queen, Mrs. Rhea Wright, Sterling; first and second handmaidens, Mrs. Frances Emmons, Rock Falls; third handmaiden, Mrs. Rose Hall, Rock Falls; worthy organist, Mrs. Myrtle Bishop; worthy guardian, Miss Cecelia Williams; worthy guard, Charles Ramsey.

Honorary officers included: lag escort, Mrs. Ruth Ramsey; Mrs. Audrey Logan of Rock Falls, Mrs. Frances Sproul; courtier, Miss Jean Thompson; banner bearer, Mrs. Marjorie Barrowman; Mrs. Maudie Hoberg, and Mrs. Edna Fricke; flower girl, Mrs. Isabel Santelman; lecturer, Mrs.

### GUEST SPEAKER

Mrs. Alice Hills, naturalist at White Pines Forest state park, will present an illustrated lecture, "Spring Comes to White Pines," at 1 p. m. Wednesday at the April luncheon meeting of the Rock Falls Woman's club. The meeting is to be held at the Rock Falls Methodist church.

Mrs. Hills addressed members of the Dixon Woman's club last Saturday.

Louise Ogren; Madonna, Mrs. Edd Hulseart; king's guards, William Pippert of Rock Falls, Larry Santelman, William Fricke, Jesse Hall of Rock Falls, Clarence Beard, Sterling Schrock, Harold Coss, Ellsworth Logan and Ernest Logan of Rock Falls; queen's attendants, Mesdames Maude Hobbs, Eleanor Kitson, Mabel Pessink, Grace Stephan, Nellie Gearhart, Fannie Ware, Allie Barton, Bernice Beard, Mary Logan of Rock Falls, Anna Moore of Sterling, and Miss Margaret Sproul.

During the flag escort, strains of the national anthem, "The Star Spangled Banner" were played on the organ, and a spotlight shone down on the stars and stripes. Mrs. Ogren entertained with an amusing reading, "The Benefit Bridge Party," and at the close of her brief lecture to the new officers, she presented a bouquet to the new worthy high priestess. Mrs. Frances Schrock presented the shrine's jewel to Mrs. Hobbs, the retiring worthy high priestess. Miss Ruth Fuhr gave the officers' gift to the junior worthy high priestess, and Mr. Huebner accepted the shrine's jewel from Clyde Smart, associate watchman of shepherds. Each retiring officer received a gift from Mrs. Hobbs.

Refreshments were served in the banquet room, at yellow and white tables, arranged in the form of a cross. Streamers of yellow and white crepe paper were laced the length of the tables, forming a V at each place. Golden jonquils, and yellow and white programs, decorated with the shrine insignia, completed the decorative motif.

Mrs. Flora Stitzel and Miss Frances Patrick were in charge of the table decorations and programs. Mrs. Edna Quirk presided in the kitchen, and Mrs. Myrtle Jensen headed the dining room committee.

### TRAVEL CLUB TO HAVE GUEST NIGHT

Thursday evening's meeting of the Foreign Travel club, at the Loveland Community House, is to be a Guest Night event. Dr. Nichols Percas of the Rockford college faculty will share his experience in Venezuela with the club members and their guests.

## Dixon Students Take Aptitude Tests at Urbana

Sixteen Dixon high school seniors were motoring downstate to the University of Illinois this morning to participate in a battery of vocational interest tests given by the university's department of psychology, to determine in which field the students display the greater aptitude. The tests are to be scored today, and tomorrow, the group will be given an opportunity to consult with counselors of the psychology department.

The project has been arranged to aid in planning college courses. In the group from Dixon are Helen Boyd, Glenyce Mellett, Jane Goff, Lura Williams, Mary Risley, Roseanne Deutsch, Rosemary Torrens, Rita Langan, Janet Wimpleberg, Roger Chapman, Theron Lane, Bernard Lee Frazier, Robert Tennant, Bud Bradford, Bill Newman, Jo Van Meter, and Richard Keller.

Accompanying the students and assisting with transportation are E. V. Mellett, Dwight Chapman, A. N. Boyd, and Frank Deutsch. The party will return to Dixon tomorrow afternoon.

In addition to results of today's findings, records of a preliminary test given at the local high school a week ago are also on file at the university for future reference.

### ATTEND CONCERT

Mr. and Mrs. George Henert and Mr. and Mrs. Harold Henert and daughter, Norma June of Ashton motored to Princeton recently to attend a concert presented by the Men's Glee club of 60 voices from the University of Illinois. Burnell Henert, son of the George Henerts, is one of the singers.

The club presented two concerts in the Princeton Township high school auditorium, under sponsorship of the Civic club. Burnell, a junior in the college of agriculture, has been a member of the Glee club for the past three years.

The singers have appeared recently in Decatur and St. Louis, and broadcast regularly from station WILL, Urbana. Prof. Clarence E. Sawhill is the director.

Revenue freight car loadings for the week ended March 7 totaled 770,697 cars, an increase of 3.8 per cent over the corresponding week for 1940.

## COUSIN OF DIXON WOMEN IS AMONG AMERICANS INTERNED BY JAPANESE IN PHILIPPINES

The names of Charles Franks, (who is a cousin of the Misses Mary and Jane Franks of 615 Assembly Place) and Mrs. Franks, the former Miss Mayme Herrington of Lanark, were among 1,500 persons, mostly Americans, who were listed as Japanese prisoners at Manila, in a report issued today in Washington by Francis B. Sayre, high commissioner to the Philippines.

Mr. Franks, who formerly resided near Polo, and his wife have been engaged in educational work in Manila for many years, he having gone there in response to a call for teachers in 1898. Since then, he has been an instructor, provincial superintendent, president of the Manila Normal school, and secretary to several governor generals of the islands. When interned by the Japanese, he was a statistician for Manila.

A daughter of Mr. and Mrs. Franks escaped capture by the Japanese when she was evacuated from Singapore to Australia before the fall of the British naval base. Another daughter resides in Sunnyside, Wash.

A letter sent to Mr. and Mrs. Franks by their Dixon cousins returned here in 17 days, bearing a censor's stamp and the terse announcement: "Service Suspended."

According to Commissioner Sayre, the International Red Cross is seeking the appointment of a Swiss citizen to act as its representative at Manila. Any information obtained by an agent will be forwarded to the next of kin by the information bureau of the army provost marshal general's office, which maintains direct cable connections with the International Red Cross at Geneva.

### CAMPUS NOTES

Raymond W. Fricke, a junior at Northwestern university medical school, returned to Chicago yesterday, after a week end visit with his parents, the William Frickes of "Shore Acres." Raymond was graduated from the Leroy, Ill. high school, received a bachelor degree from Illinois Normal university, a master's degree from the University of Iowa, took pre-medical work at the University of Illinois, and was recently honored at Northwestern by being elected president of Alpha Kappa Kappa honorary fraternity.

Mr. and Mrs. Lloyd C. Fricke and daughter Theo Rae of Rantoul also spent the week end here with Mr. Fricke's parents. He is director in the manual arts department of Rantoul high school.

The Frickes moved to Dixon about three years ago from Leroy, and have resided at "Shore Acres" for the past year.

### SIGNS WITH ATHLETICS

Los Angeles, March 31—(AP)—Kenneth Franklin Richardson, who formerly played for Moline, Ill., in the Three I league, has been signed by Connie Mack of the Philadelphia Athletics. The 26-year-old rookie filled in at first base all spring for the Athletics, during Dick Siebert's holdout.

### TO MADISON

Mr. and Mrs. Roy Finney and daughter, Eileen, a Dixon high school senior, expect to motor to Madison, on Thursday, where Eileen expects to enroll as a freshman at the University of Wisconsin in September. Bill Shultz, son of Mr. and Mrs. John Shultz, will return to Dixon with them from Madison, where he is a first-year student on the university campus, to spend the Easter recess.

### PRE-NUPITAL PARTY

Among the parties that will compliment Miss Marian Stokstad of Rockford, fiancée of A. P. Stohl, also of Rockford, this week is a breakfast shower which two friends of the bride-to-be, Mrs. Kenneth Reber of Byron and Miss Vernetta Hovey will give at the latter's home, in Rockford. The wedding is to take place Saturday, April 11, at Rockton's Old Stone church.

### FALL PROVES FATAL

Carbondale, Ill., March 31 — (AP)—Charles Finley Greene of Valer, 16, died here last night of head injuries incurred Sunday when he accidentally plunged from a cliff in Giant City state park. Greene and five other young people were together when he slipped on wet moss and fell from the cliff to a creek basin 50 feet below.

## A Thought for Today

The tongue can no man tame; it is an unruly evil, full of deadly poison.—James 3:8.

Since word is frail, and thought is free, keep well thy tongue, I counsel thee—James 1 of Scotland.

## Politics Not as Usual

At a gathering of leaders of a major political party, the cry went up, "Win the war, yes, but politics as usual." You could see them tramping each other in a scramble for the pie counter, and running like mad to catch the gravy train. Of course, some stalwarts of the other party also show more concern over keeping Cousin Katie on the public payroll than they do about driving to victory.

Politics, yes, but not politics as usual. This country and all her citizens must have shirt sleeves rolled up now for only one job—winning the war. Any interference from any source, clique, group or special interest cannot be tolerated.

Some people evidently would rather see us lose the war, or at least fight to a stalemate, than see the New Deal in office. Some New Dealers apparently would rather gum up the war machine than depart from their places of glory and big salaries. Harsh words, but these are harsh times.

There will be primaries this spring and summer and elections this fall as usual. No one has argued seriously otherwise. Abraham Lincoln ran for his second term during some bitter days of the Civil War. Woodrow Wilson took his case to the country in the congressional elections of 1918.

Elections and bitter political wrangling, however, are two different things. France played politics as usual right up until Nazi boots goosestepped under the Arc de Triomphe. Cabinet ministers, deputies and bureaucrats thought it more vital to lambast political opponents and thus divide the country further than to unite the army and the people to save the republic.

Unfortunately, evidence exists that some of our tub-thumping statesmen would follow the same disastrous route as did the French. Some of them seem dead set on an old-time, knock-down political fight as if there were nothing greater at stake than election of an alderman from the third ward.

The people will elect those they believe will do the most to finish the job so well started by MacArthur and others. The only consideration is which candidate has done or will do the most to hasten the day of victory. This is not a war for or by New Dealers or Old Dealers, Republicans or Democrats. It is a war for and by Americans of every race, color, creed and party—or no party.

Just as there are those trying to promote Hitler's smart maxim "Divide and Conquer" by creat-

ing racial and religious troubles, so some may help him by shouting that only one party can win the war. Americans bent on crushing the enemy won't listen.

## Break Down the Barriers

If the governor of North Pennsylvania should erect an electrically-charged barbed wire fence around his state to prevent citizens of other states from doing business with his people, the resulting sound and fury would rock the nation from the Maine woods to Hollywood's swimming pools.

The idea of free commerce between the states ranks almost with our other basic rights, yet there is hardly more free commerce between some of the states than between the United States and Germany. Obviously such local barriers hinder the all-out war drive.

Take local building codes. Strict compliance with those regulations has forced Washington to build war plants in comparatively undesirable locations. That means a waste of time and wasted time means wasted American lives on the battle fronts.

Take truck legislation, of which there are 45 varieties. As a result, manufacturers cannot build a heavy duty truck which could be operated legally in all the states. That means the free transport of goods, including war materials, cannot be achieved from some states to others. It would be just as sensible to put water hazards and high jumps on the highways, and make it a real steeplechase.

Take eggs, butter and other dairy products. We are urged to consume more of these commodities so we will be able to put that extra push on the assembly line, in the corn field, in the stores and mills. Yet dozens of states dislike the eggs and dairy products of other states so much that a code of regulation and restriction snarls up free commerce in these vital foods. As a result, prices jump, an artificial scarcity appears and workers who need these products must find it more difficult to get them.

Dozens of other state "they-shall-not-pass" road signs clutter up the legal highways. Some of them, such as inspection of grains and animals for disease, may be justified. Most of them bog down the victory drive and should be eliminated.

Do the special interests behind these trade shackles imagine for one minute that Hitler permits Munich to prevent trucks carrying shells from Essen to pass through without paying tribute? Do they think the local officials of Tokyo can pile special restrictions on rice from Japan's farming areas?

Whether the people, the federal government or the states and municipalities will strike down these barriers remains to be seen. State and local rights are one thing. The right of a nation of 130,000,000 to fight and work as one unit for the preservation of all is another—which cannot be denied.

## Salute to Labor

A sincere salute to America to the C. I. O. and the A. F. of L. for offering to give up holiday and Sunday double pay for the duration. That was the patriotic thing to do, the kind of action that wins wars.

Now let's have some comparable concessions from those who have been loudly criticizing "double pay."

Police found a missing Indiana boy in a vacant store asleep under a sink. Playing plumber?

Have is something all kids like to play.

## Deaths

## Suburban—

**MRS. CHARLES WAGNER**  
Mrs. Charles Wagner, 79, lifelong resident of Lee county, passed away at her home in Ashton at 5:00 o'clock Monday afternoon, after a short illness. Funeral services will be held at the home at 2:15 o'clock Wednesday afternoon and at the Ashton Presbyterian church at 2:30, the Rev. C. H. Montanus, pastor, officiating. Burial will be in the family lot in Ashton cemetery.

Christina Sandrock, daughter of Mr. and Mrs. George Sandrock, was born in Bradford township, Lee county, Dec. 10, 1862 and is survived by two children, Mrs. Clara Sennler and William Wagner, both of Ashton. Her husband preceded her in death five years ago. A complete obituary will be published later.

## GLENN JACOBSON

(Telegraph Special Service)  
Rochelle, March 31—Glenn Chester Jacobson, 13, son of Christ and Mary Hanson Jacobson, of North Tenth street, passed away at 5:30 o'clock Monday afternoon at the Dixon state hospital, death ending illness which had afflicted him from birth. Funeral arrangements are being held in abeyance pending receipt of word from relatives at a distance.

Glenn was born in Rochelle Aug. 27, 1928 and is survived by his parents; five brothers, Ernest DeWayne and Robert of Rochelle, Clifford of Rice Lake, Wis., and Ervin of Chicago; and three sisters, Mrs. Gertrude Bael of Hincley and Dorothy and Joy at home. His father is a patient in a Rockford hospital, following an operation a week ago, and has not yet been advised of Glenn's death.

## Suburban—

**MRS. MORRIS DRUKER**  
(Telegraph Special Service)  
Rochelle, March 31—Mrs. Morris (Esther Slav) Drucker, 51, passed away at the family home, 604 First avenue, at 9:30 o'clock Monday evening after an illness of three years duration, and her body was taken to Chicago by the Unger funeral directors last night. Funeral services will be held at a funeral home at 3654 Roosevelt road, Chicago, with burial in Waldheim cemetery.

Mrs. Drucker is survived by her husband and the following children: Belle of Chicago, Leonard of Stillwater, Okla.; Sol at home, Lasarius, Samuel, Simon and Harry Slav of Chicago, and Mrs. Mary Strauss, also of Chicago.

**MRS. MARY FITZPATRICK**  
(Telegraph Special Service)

## NEWS BEHIND THE NEWS

(Distributed by King Features Syndicate, Inc. Reproduction in whole or in part strictly prohibited.)

Washington, March 30.—Resignation of Sidney Hillman, head of the War Production Board's labor division, has been conveniently misplaced on Donald Nelson's desk. The pile of papers there is rather high and you could lose nearly anything you had a mind to.

A notion is prevalent around WPB that before it is found Hillman will be offered a more prominent job.

Prominent enough to make everyone, including Hillman, forget everything, is the directorship of the new man-power mobilization (draft-for-industry) campaign, if Roosevelt wants to go that high.

If he does, all available army stretchers will have to be mobilized first aid stations. They are already slightly weak on "draft-for-industry" and only the stout-hearted are likely to survive the appointment of a labor leader to that post, where he could shift around their personnel.

More than likely Hillman will get some less controversial elevation.

His office started to issue an official denial when first reports that he had offered his resignation came out, but only unofficial reputations of the suggestion were made. Unpublished resignations are often forgotten, then denied, in government, if satisfactory arrangements are concluded.

Bulwark of Roosevelt's campaign to curb anti-labor legislation in congress was Senator Elbert Thomas of Utah, the ex-professor, who is the self-appointing co-moderator of FDR's labor-management conference.

As chairman of the senate labor committee, Thomas has acted out his role of bulwark unrelentingly against any legislation to which labor is opposed. He stifled the Smith anti-strike bill passed by the house. Before the war, his committee did report out a mild bill recommending labor conciliation, but Roosevelt's "no-strike" agreement came then and prevented the bill from going further.

Thomas regards this "no-strike" agreement, including arbitration, as a charter calling by implication for maintenance of the 40-hour base pay week. It was not mentioned publicly at the time of the agreement, but it is quite probable labor had an assurance that early from FDR that he was opposed to any tampering with limitations of the work week.

Against these and all associated bulwarks, the general opinion in the congressional cloakroom is that no change can be made in the 40-hour base pay without the approval of the administration and labor—which cannot be obtained. This is causing the leaders to say the matter is dead.

It is true Speaker Rayburn came out for the 48-hour week, after having criticized "the campaign against labor," at the height of the administration. His personal expression for 48 hours followed a large mass meeting in Texas.

Car loadings have been easing down more sharply the past three weeks, but do not let that induce you to believe the production program is falling very much behind schedules. The conversion of industry to full effort is responsible figures confirm this official interpretation.

The decline seems wholly attributable to consumer goods which are no longer being manufactured, and for which raw materials are no longer being ordered.

First quarter car loadings this year, nevertheless, were nearly 9 per cent over last year. The peak week, the latter part of January, was higher than any in 12 years.

This army is going to eat with silver knives, forks and spoons. The procurement division has decided that by switching from chromium flatware (army name for eating implements) to silver, it can save some 13 tons of chromium which is very, very short since the Philippine supply has been lost.

The announcement seemed to have a slight touch of irony in it when it said there was no shortage of silver.

Thus, at last, is some practical use being found for all the silver Mongolia has been anxious for the treasury (by direction of congress) these past few years. Now if the dental division of the army will only decide to use some of that gold buried at Fort Knox to fill teeth, a practical war value will be established for the second precious metal in which we have no shortage.

## Take It Easy, Men; There'll Be Razor Blades for Shavers

**By STERLING F. GREEN**  
Washington, March 31—(AP)—Take it easy, men. The Office of Price Administration says there won't be a razor blade shortage, after all, and it is unnecessary to stock up with them.

People who do that are hoarders, said Dan A. West, director of OPA's consumer division, and besides, "in this case there isn't even a shortage."

The rush for shaving tackle was touched off by last week's War Production Board order curtailing output of safety razor blades to the monthly average production in 1940. What confused shavers was that the announcement said in one place that an "ample supply" would continue to be available, whereas in another place it said that only "an average of a blade per week per shaver."

**Matters Clarified**  
West clarified matters today, however, when he reassured shavers that the curtailment order would permit a "completely adequate supply," because it will mean manufacture of at least 2,400,000,000 blades this year. This compares, West reported in a formal statement, with 700,000,000 in 1932, 1,600,000,000 in 1937 and 2,000,000,000 in 1939.

"A little extra care in shaving and in handling will yield many more shaves per blade," West said, and offered these recommendations:

Before shaving prepare your beard carefully so that hard whiskers, grit and skin oil won't break down the blade. Careful washing and lathering soften the beard and make shaving easier on the blade. Rinse your blade in hot water before using. Rinse the razor with hot water frequently while shaving.

Rinse razor and blade well after shaving.

Shake the blade vigorously and dry carefully to avoid rust.

## PASSION WEEK SERVICES

Three special services during the week before Easter will feature the observance of the season at Bethel U. E. church on North Galena avenue. These meetings will be held on Wednesday, Thursday and Friday evenings at 7:30 p. m. The Rev. R. S. Wilson, the pastor, will bring messages in connection with the last week of Christ's life. These meetings will be evangelistic as well as helpful to Christians.

On Wednesday evening, the subject will be, "Counting the Cost," using the experience of Judas as a basis for the message.

On Thursday evening, the subject will be "Gethsemane" with an explanation of Christ's agony in the garden.

On Friday evening the theme will be "Looking At the Cross," with the viewpoint of various persons who were at the foot of the cross compared to the way people look at the cross today.

The evening service will be especially for the benefit of those who are unable to attend the union Good Friday service at the Methodist church, during the afternoon. Bethel church will cooperate with the union service, and the pastor has been asked to present one of the meditations on "The Verdict of Pilate."

Easter services next Sunday will begin with a sunrise service at 6:45 a. m. followed by the regular services of the day. A demonstration of the Solovox will be given at the sunrise service and also the evening service.

### Wife and Son with MacArthur at the Front

While brave but outnumbered American troops resisted Jap forces, the wife of Gen. Douglas MacArthur stayed by his side on Corregidor. In this picture taken after the war began they are leaving officers' mess. (NEA Telephoto.)

In military uniform, little Arthur MacArthur, 4 year old son of the general, stands near a tunnel on the island fortress of Corregidor, before the spectacular dash with his parents to Australia. (NEA Telephoto.)

### Japs Wreck Homes in Town of Paraque

American troops survey homes in town of Paraque, wrecked by Japanese raiders during early hostilities in the Philippines. Paraque is on the rim of Manila bay between Cavite and Manila. (United States Army Signal Corps photo.) (NEA Telephoto.)

### Directing Work on Alaskan Road

Col. William Morris Hoge, U. S. Engineers Corps, is in charge of constructing the new war highway from Dawson Creek, British Columbia, to Fairbanks, Alaska.

### EASTER HATS LOOK EVEN CRAZIER WHEN MEN WEAR THEM

For no particular reason we sent out and got six of the new creations for Easter and photographed them atop some of the fellows around the shop. Results are kind of amusing.

### Jap Raiders Shot Down and Captured

These Japanese aviators were shot down and taken prisoners during Nipponese raid on Manila, former capital of the Philippine Islands. (U. S. Army Signal Corps photo.) (NEA Telephoto.)

### Cuts Profits

### From Ceylon to Seattle the Allies Aim at Japan

From India and adjacent Ceylon to Alaska, supplied from Seattle, the United Nations are mustering air might for future attacks on Japan. Map shows possible raid routes, some of which are still out of range of our 3000-mile bombers, requiring use of Russian shuttle bases.

### Corregidor Defies Jap Blasting

A Thought for Today

The tongue can no man tame; it is an un-  
ruly evil, full of deadly poison.—James  
3:8.

Since word is thrall, and thought is  
free, keep well thy tongue, I counsel thee—  
James I of Scotland.

Politics Not as Usual

At a gathering of leaders of a major political  
party, the cry went up, "Win the war, yes, but  
politics as usual." You could see them tramping  
each other in a scramble for the pie counter, and  
running like mad to catch the gravy train. Of  
course, some stalwarts of the other party also  
show more concern over keeping Cousin Katie  
on the public payroll than they do about driving to  
victory.

Politics, yes, but not politics as usual. This  
country and all her citizens must have shirt sleeves  
rolled up now for only one job—winning the war.  
Any interference from any source, clique, group or  
special interest cannot be tolerated.

Some people evidently would rather see us lose  
the war, or at least fight to a stalemate, than see  
the New Deal in office. Some New Dealers appar-  
ently would rather gum up the war machine than  
depart from their places of glory and big salaries.  
Harsh words, but these are harsh times.

There will be primaries this spring and sum-  
mer and elections this fall as usual. No one has  
argued seriously otherwise. Abraham Lincoln ran  
for his second term during some bitter days of the  
Civil War. Woodrow Wilson took his case to the  
country in the congressional elections of 1918.

Elections and bitter political wrangling, how-  
ever, are two different things. France played pol-  
itics as usual right up until Nazi boots goosestepped  
under the Arc de Triomphe. Cabinet ministers, de-  
puties and bureaucrats thought it more vital to lam-  
bast political opponents and thus divide the coun-  
try further than to unite the army and the people  
to save the republic.

Unfortunately, evidence exists that some of  
our tub-thumping statesmen would follow the same  
disastrous route as did the French. Some of them  
seem dead set on an old-time, knock-down political  
fight as if there were nothing greater at stake than  
election of an alderman from the third ward.

The people will elect those they believe will do  
the most to finish the job so well started by Mac-  
Arthur and others. The only consideration is  
which candidate has done or will do the most to  
hasten the day of victory. This is not a war for  
or by New Dealers or Old Dealers, Republicans or  
Democrats. It is a war for and by Americans of  
every race, color, creed and party—or no party.

Just as there are those trying to promote Hit-  
ler's smart maxim "Divide and Conquer" by creat-

ing racial and religious troubles, so some may help  
him by shouting that only one party can win the  
war. Americans bent on crushing the enemy won't  
listen.

Break Down the Barriers

If the governor of North Pennsylvania should  
erect an electrically-charged barbed wire fence  
around his state to prevent citizens of other states  
from doing business with his people, the resulting  
sound and fury would rock the nation from the  
Maine woods to Hollywood's swimming pools.

The idea of free commerce between the states  
ranks almost with our other basic rights, yet  
there is hardly more free commerce between some  
of the states than between the United States and  
Germany. Obviously such local legal barriers hin-  
der the all-out war drive.

Take local building codes. Strict compliance  
with those regulations has forced Washington to  
build war plants in comparatively undesirable lo-  
cations. That means a waste of time and wasted  
time means wasted American lives on the battle  
fronts.

Take truck legislation, of which there are 45  
varieties. As a result, manufacturers cannot build  
a heavy duty truck which could be operated legally  
in all the states. That means the free transport  
of goods, including war materials, cannot be  
achieved from some states to others. It would  
be just as sensible to put water hazards and high  
jumps on the highways, and make it a real steeple-  
chase.

Take eggs, butter and other dairy products. We  
are urged to consume more of these commodities  
so we will be able to put that extra push on the  
assembly line, in the corn field, in the stores and  
mills. Donald M. Nelson says that push is neces-  
sary. Yet dozens of states dislike the eggs and  
dairy products of other states so much that a code  
of regulation and restriction snarls up free com-  
merce in these vital foods. As a result, prices  
jump, an artificial scarcity appears and workers  
who need these products most find it more diffi-  
cult to get them.

Dozens of other state "they-shall-not-pass"  
road signs clutter up the legal highways. Some of  
them, such as inspection of grains and animals  
for disease, may be justified. Most of them bog  
down the victory drive and should be eliminated.

Do the special interests behind these trade  
shackles imagine for one minute that Hitler per-  
mits Munich to prevent trucks carrying shells from  
Essen to pass through without paying tribute? Do  
they think the local officials of Tokyo can pile ap-  
proach restrictions on rice from Japan's farming  
areas?

Whether the people, the federal government  
or the states and municipalities will strike down  
these barriers remains to be seen. State and local  
rights are one thing. The right of a nation of 130,-  
000,000 to fight and work as one unit for the pre-  
servation of all is another—which cannot be denied.

Salute to Labor

A sincere salute from America to the C. I. O.  
and the A. F. of L. for offering to give up holiday  
and Sunday double pay for the duration. That was  
the patriotic thing to do, the kind of action that  
wins wars.

Now let's have some comparable concessions  
from those who have been loudly criticizing "double  
pay."

Police found a missing Indiana boy in a vacant  
store asleep under a sink. Playing plumber?

Have in something all kids like to play.

NEWS  
BEHIND  
THE NEWS  
By PAUL MALLON

(Distributed by King Features  
Syndicate, Inc. Reproduction in  
whole or in part strictly prohib-  
ited.)

Washington, March 30.—Resig-  
nation of Sidney Hillman, head of  
the War Production Board's labor  
division, has been conveniently  
misplaced on Donald Nelson's  
desk. The pile of papers there is  
rather high and you could lose  
nearly anything you had a mind  
to.

A notion is prevalent around  
WPB that before it is found Hill-  
man will be offered a more prom-  
inent job.

Prominent enough to make  
everyone, including Hillman, for-  
get everything, is the directorship  
of the new man-power mobiliza-  
tion (draft-for-industry) cam-  
paign, if Roosevelt wants to go  
that high.

If he does, all available army  
stretchers will have to be mobil-  
ized first aid stations. They are  
already slightly weak on "draft-  
for-industry" and only the stout-  
hearted are likely to survive the  
appointment of a labor leader to  
that post, where he could shift  
around their personnel.

More than likely Hillman will  
get some less controversial eleva-  
tion.

His office started to issue an of-  
ficial denial when first reports  
that he had offered his resigna-  
tion came out, but only unofficial  
reputations of the suggestion  
were made. Unpublished resigna-  
tions are often forgotten, then de-  
nied, in government, if satisfac-  
tory arrangements are concluded.

Bulwark of Roosevelt's cam-  
paign to curb anti-labor legisla-  
tion in congress was Senator El-  
bert Thomas of Utah, the ex-pro-  
fessor, who is the self-effacing  
co-moderator of FDR's labor-  
management conference.

As chairman of the senate la-  
bor committee, Thomas has acted  
out his role of bulwark unremitt-  
ingly against any legislation to  
which labor is opposed. He stifled  
the Smith anti-strike bill passed  
by the house. Before the war, his  
committee had reported out a mild  
bill recommending labor concilia-  
tion, but Roosevelt's "no-strike"  
agreement came then and pre-  
vented the bill from going furth-  
er.

Thomas regards this "no-  
strike" agreement, including ar-  
bitration, as a charter calling by  
implication for maintenance of  
the 40-hour base pay week. It  
was not mentioned publicly at the  
time of the agreement, but it is  
quite probable labor had an as-  
surance that early from FDR  
that he was opposed to any tam-  
pering with limitations of the  
work week.

Against these and all associat-  
ed bulwarks, the general opinion  
in the congressional cloakroom is  
that no change can be made in  
the 40-hour base pay without the  
approval of the administration  
and labor—which cannot be ob-  
tained. This is causing the lead-  
ers to say the matter is dead.

It is true Speaker Rayburn  
came out for the 48-hour week,  
after having criticized "the cam-  
paign against labor," at the he-  
at of the administration. His  
personal expression for 48 hours  
expressed a large mass meeting in  
Texas.

Car loadings have been easing  
down more sharply the past three  
weeks, but do not let that induce  
you to believe the production pro-  
gram is falling very much behind  
schedules. The conversion of in-  
dustry to full effort is respon-  
sible figures confirm this official in-  
terpretation.

The decline seems wholly at-  
tributable to consumer goods  
which are no longer being manu-  
factured, and for which raw ma-  
terials are no longer being ordered.

First quarter car loadings this  
year, nevertheless, were nearly 9  
per cent over last year. The peak  
week, the latter part of January,  
was higher than any in 12 years.

This army is going to eat with  
silver knives, forks and spoons.  
The procurement division has de-  
cided that by switching from  
chromium flatware (army name  
for eating implements) to silver,  
it can save some 13 tons of  
chromium which is very, very  
short since the Philippine supply  
has been lost.

The announcement seemed to  
have a slight touch of irony in it  
when it said there was no short-  
age of silver.

Thus, at last, is some practical  
use being found for all the silver  
Morgenhau has been amassing  
for the treasury (by direction of  
congress) these past few years.

Now if the dental division of  
the army will only decide to use  
some of that gold buried at Fort  
Knox to fill teeth, a practical war  
value will be established for the  
second precious metal in which  
we have no shortage.

Take It Easy, Men;  
There'll Be Razor  
Blades for Shavers

By STERLING F. GREEN  
Washington, March 31.—(AP)—  
Take it easy, men. The Office of  
Price Administration says there  
won't be a razor blade shortage,  
after all, and it is unnecessary to  
stock up with them.

People who do that are hoard-  
ers, said Dan A. West, director of  
OPA's consumer division, and be-  
sides, "in this case there isn't even  
a shortage."

The rush for shaving tackle was  
touched off by last week's War  
Production Board order curtailing  
output of safety razor blades to  
the monthly average production in  
1940. What confused shavers was  
that the announcement said in one  
place that an "ample supply"  
would continue to be available,  
whereas in another place it said  
that only "an average of a blade  
per week per shaver."

Matters Clarified  
West clarified matters today,  
however, when he reassured  
shavers that the curtailment order  
would permit a "completely ade-  
quate supply," because it will  
mean manufacture of at least  
2,400,000,000 blades this year. This  
compares, West reported in a for-  
mal statement, with 700,000,000 in  
1932, 1,600,000,000 in 1937 and  
2,000,000,000 in 1939.

"A little extra care in shaving  
and in handling will yield many  
more shaves per blade," West  
said, and offered these recommen-  
dations:

Before shaving prepare your  
beard carefully so that hard whis-  
kers, grit and skin oil won't break  
down the blade. Careful washing  
and lathering soften the beard and  
make shaving easier on the blade.

Rinse your blade in hot water  
before using. Rinse the razor with  
hot water frequently while shav-  
ing.

Rinse razor and blade well after  
shaving.

Shake the blade vigorously and  
dry carefully to avoid rust.

PASSION WEEK SERVICES

Three special services during  
the week before Easter will fea-  
ture the observance of the season  
at Bethel U. E. church on North  
Galena avenue. These meetings  
will be held on Wednesday, Thurs-  
day and Friday evenings at 7:30  
p. m. The Rev. R. S. Wilson, the  
pastor, will bring messages in  
connection with the last week of  
Christ's life. These meetings will  
be evangelistic as well as help-  
ful to Christians.

On Wednesday evening, the sub-  
ject will be, "Counting the Cost,"  
using the experience of Judas as a  
basis for the message.

On Thursday evening, the sub-  
ject will be "Gethsemane" with an  
explanation of Christ's agony in  
the garden.

On Friday evening the theme  
will be "Looking At The Cross,"  
with the viewpoint of various per-  
sons who were at the foot of the  
cross compared to the way people  
look at the cross today. The eve-  
ning service will be especially for  
the benefit of those who are un-  
able to attend the union Good Fri-  
day service at the Methodist  
church, during the afternoon.

Bethel church will cooperate with  
the union service, and the pastor  
has been asked to present one  
of the meditations on "The Ver-  
dict of Pilate."

Easter services next Sunday  
will begin with a sunrise service  
at 6:45 a. m. followed by the  
regular services of the day. A  
demonstration of the Solovox will  
be given at the sunrise service and  
also the evening service.

# FIRST PHILIPPINE WAR PICTURES REACH UNITED STATES

## Cavite Naval Base Burns After Jap Raid

Barges and docks in Cavite navy yards, American naval base southwest of Manila, 22 miles east of Corregidor across Manila bay, destroyed by fire after Jap raid during first week of war with the United States. Loss of Cavite, located on a peninsula strategically important to the defense of Manila, paved the way for the fall of the Philippine capital Jan. 1. (United States Army Signal Corps photo.) (NEA Telephoto.)

## Japs Wreck Homes in Town of Parangue

American troops survey homes in town of Parangue, wrecked by Japanese raiders during early hostilities in the Philippines. Parangue is on the rim of Manila Bay between Cavite and Manila. (United States Army Signal Corps photo.) (NEA Telephoto.)

## Jap Raiders Shot Down and Captured

These Japanese aviators were shot down and taken prisoners during Nipponese raid on Manila, former capital of the Philippine Islands. (U. S. Army Signal Corps photo.) (NEA Telephoto.)

## From Ceylon to Seattle the Allies Aim at Japan

From India and adjacent Ceylon to Alaska, supplied from Seattle, the United Nations are mustering air might for future attacks on Japan. Map shows possible raid routes, some of which are still out of range of our 3000-mile bombers, requiring use of Russian shuttle bases.

## Directing Work on Alaskan Road

Col. William Morris Hoge, U. S. Engineers Corps, is in charge of constructing the new war highway from Dawson Creek, British Columbia, to Fairbanks, Alaska.

## Cuts Profits

William S. Jack, president of Jack & Heintz company, Cleveland, makers of aircraft parts, who announced after house investigation of war profits in his plant that he would slash high salaries and bonuses, and give profits over 6 per cent to the army and navy. (NEA Telephoto.)

## Wife and Son with MacArthur at the Front

While brave but outnumbered American troops resisted Jap forces, the wife of Gen. Douglas MacArthur stayed by his side on Corregidor. In this picture taken after the war began they are leaving officers' mess. (NEA Telephoto.)

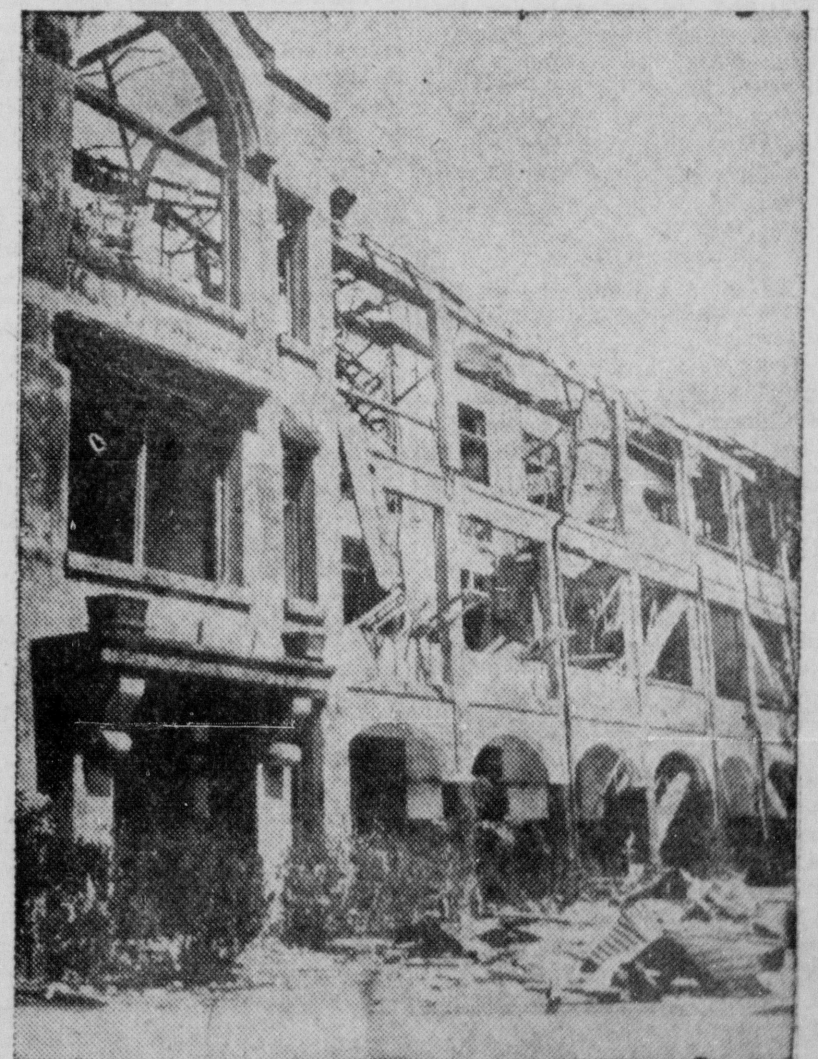

In military uniform, little Arthur MacArthur, 4 year old son of the general, stands near a tunnel on the island fortress of Corregidor, before the spectacular dash with his parents to Australia. (NEA Telephoto.)

## EASTER HATS LOOK EVEN CRAZIER WHEN MEN WEAR THEM

For no particular reason we sent out and got six of the new creations for Easter and photographed them atop some of the fellows around the shop. Results are kind of amusing.

## Corregidor Defies Jap Blasting

Topside barracks on Corregidor Island, wrecked by Jap bombers in one of their vain efforts to dislodge United States troops who are still holding the stronghold at the mouth of Manila bay. (NEA Telephoto.)

## Boys, Meet Miss National Defense

Alma Carroll appears dressed for the farm front here, rather than for her title of Miss National Defense. Obviously, however, any number of boys in blue or khaki would do battle to defend Miss Carroll.

# HEARD 'N' SEEN

JOHNNY MITCHELL

**AGAPE AN AGHAST**... George Crawford has been subject for observation of late... ever since that one night last week when some damsel and her boy friend accompanied by a three-foot alligator answering to the call of "Oscar" dropped in to call on George... but the latter wasn't on such friendly terms with the 'gator for all of George's other pals decided it was high time to get for home... "Oscar" is one of a pair of alligators which is owned by "Blitz" Aschenbrenner... and "Oscar" had a night out without "Blitz's" knowledge of it...

**ALIVE AND KICKIN'**... there has been a nasty rumor circling the drag to the effect that Del Blackburn, ex-Dixon high star, Captain of Coach A. C. Bowers' 1928 football team and now living in Portland, Oregon, had been killed in some sort of an accident... the rumor gets a negative confirmation as we acquired the full particulars from Al Petit today... Al has just received word from Del's wife that the ol' boy is very much alive and kickin'... Del is a pilot and is also acting as an Air Raid Warden in Portland...

**MORE ABOUT BIKES**... among the younger fry of Dixon who are struggling with the many and varied problems that confront all beginners in the rapidly increasing crowd of those taking to bicycling is Beverly Billinger... Beverly's riding lessons are progressing rapidly however and her younger sister, Patricia, is also practicing the art of combining pedaling with balancing...

**A REAL PROBLEM**... while on the subject of bicycling we understand that bikes are becoming so thick in Miami Beach that a traffic problem has arisen... Kiwanians of Coral Gables arrived at their weekly luncheon on bicycles... that is, all except two who rode horseback... and incidentally, it seems that the bicycle fad is having its influence on feminine fashions too, for slacks are being seen more than ever, skirts being what they are on a bicycle...

**CAUGHT IN THE ACT**... we're attempting to solicit the services of Grad Moll, past master at the art of cycling, to give instructions to Art Nelson on how to get on and off a he-man's bike without breaking any hinges... Art was seen sailing down the drag the other day on a gal's bike... of course when that unhandy cross bar isn't there a guy's not so apt to end up with bursted britches...

**ANOTHER SOX FAN**... boy! Has our line been buzzing... ever since we stuck that item about Cub and Sox fans in yesterday's issue... but out of the congestion we did learn that Lloyd Phelps can be ranked as one of the notables backing the Pale Hose... Lloyd remarks "why I've been a Sox fan from way back when three runs in a ball game was a mighty high total"...

**BANQUET NOTES**... Dixon's bowling association had its annual fiesta yester eve... all the trimmings from steak to ice cream included... John Cahill performed the amazing spectacle of packing away three salads at once without interference with the main plate duties... we heard him choke a couple of times but with John it's no breathing when eating... Willard Jones acted as toastmaster and some of those poor guys he put on the spot will take the kinks out of his curly locks if they catch him alone... a bunch of the boys gave impromptu speeches... Dale Senoff... Walt Klein... A. Wolfe... Walter Knack... Frank Daschbach... and Mayor William Slothower, representing the City Hall, jabbed a challenge at the Court House gang for a bowling match and "Ace" Hartman was right on his feet to accept... Lyle Ballard was the loquacious gent of the evening as he surprised everyone with an honest-to-goodness brilliant bit of speech-making... we finally got Doc's full "moniker" and the formal title runs like this... Doctor Raymond Rudolph Richard Rice Dwyre... wow!... Jim Reiter ended up with 176 bits to the good as all the fellows chipped in two-bits apiece and drew numbers with the winner taking half the pot and the other half to buy smokes for some of the boys in camp... a swell gesture... "Dasch" was presented with a beautiful huge plant with red flowers and we tried to find out from whom they came and the best we could do was the Ladies Aid of the Elks' Club... it was also announced that the election of officers for next year would be tabled until next fall for the ranks are dwindling due to fellows leaving for camp and an election now would only necessitate another one at a later date... all in all the banquet was really a gala affair and our only regret is that it didn't last longer but we're looking forward to next year's shin-dig which will take place sometime between Christmas and New Years...

**ALL-STATE MENTION**... Frankie Leeper, Coach Sharpe's diminutive Duke forward, and who has already received honorable mention on the All-State prep basketball team by the Associated Press received the same token of fame again today as Pat Harmon, Sports Editor for the Champaign Gazette, turned out his All-Star ratings... nice goin' Frankie...

**HITIN' THE HIGH NOTES**... only one lady got into the 200 bracket of bowling last night in the Ladies' Bowling league... Slaats cracked down 211 pins in one game... right in the wake of her heated rolling were Dwyre and Legore with 199 and 197 respectively...

## Buck Newsom Sold to Wash. Senators

Lakeland, Fla., March 31—(AP)—Friend Louis (Buck) Newsom, the loquacious baseball pitcher, will do his talking now from Washington, where the competition from Congress may be stiffer but no doubt all the more fun for Buck.

The Detroit Tigers, who matched Newsom in stubbornness over salary if not in the art of discussion, sold the swashbuckling, 34-year-old righthander to the Washington Senators last night and wrote off their last major holdout problem.

General Manager Jack Zeller announced it as a straight cash transaction. The sum was not disclosed, but it was reported to have been considerably more than the \$7,500 waiver price. Twice this spring the Tigers had asked waivers on Newsom.

Newsom's departure from the Tigers, for whom he performed sensationally in the 1940 championship season with 21 victories against five defeats, had been considered inevitable. Buck refused to accept a pay cut from his reported \$33,000 of 1941 to a reported \$13,000.

In going to Washington, the veteran twirler strengthened his position as one of baseball's gypsies.

The game's historians say that Newsom has played with 15 teams since he broke into pro ball in 1928 with Raleigh.

There was talk here today that Newsom might not stay long with Washington. The Senators were said to be hopeful of trading him to the St. Louis Browns for third baseman Harland Clift. If that happens, Buck will be serving the Browns for the third time.

## Aged Illinois Doctor Who Gained Wealth in Philippines Interned

Collinsville, Ill., March 31—(AP)—Dr. Harry D. Kneeder, who left here over 40 years ago to enter the army medical corps during the Boxer rebellion and then accumulated a huge fortune in the Philippines, is believed to be among American civilians interned by the Japanese at Manila.

Relatives said the 71-year-old physician acquired a fortune through private practice and real estate developments. The elaborate Bay View hotel, one of the largest on the islands, was operated by Dr. Kneeder.

A brother, R. Guy Kneeder, is a former mayor of Collinsville.

# Piper Ladies Bowl to Undisputed First in Ladies' League

## Four Upper League Teams Defeated; Beard Team Downs Garden's Keglers; Eichlers Bow To Nu-Fashion Beauties

L. McCordle Bowls High For Piper Team; Klein Leads Kathryn Beard Victory; Hackbarth Paces Beauty Nook

The Peter Piper Ladies' Bowling team chanced on the break of breaks last night in the Ladies' Bowling League at the Dixon Recreation when most of the top division clubs suffered two game defeats and they worthily filled the situation by defeating the Dixon Floral team in three straight games. The Piper gals took a 17-point margin in the first game, walked off with a lengthy lead in the second affair and then took a fair edge in the third game to ring up a team series count of 2509 to the Florists' 2382. Lois McCordle performed the leading role for the Piper quintet as she turned in a series of 498. Phyllis Carson topped the Florists scoring with a 445 series.

The Budweiser Garden bowlers kept their untainted claim to second honors in the league by merely winning one game out of three at the hands of the Kathryn Beard keggers. The Beard victory was paced by H. Klein's series of 509. Ellis was high for the Budweiser team with a 490.

The Nu-Fashion Beauty Nook took over two wins over the Eichler Bros. team and then dropped a third. O Hackbarth fronted the Beauticians with a 461 series and Pearl Detweiler chalked up a 390 series to lead the Eichler team. Eichler Bros. remained in third place standings last night, but could have had a tie for second with just one more game in the win column.

Villiger Drugs remained in a tie for fourth place with the Dr. Bend team as they dropped two games to the Dixon Cafe. Stiles rang up the high count for the Cafe lassies with a 419 and Huyett cracked down 439 to lead the Druggists.

The Rainbow Inn keggers treated the Dr. Bend team to a two game defeat. Nevertheless, the Bend bowlers ended with a higher team series for they did win their second game by the margin of 101 pins. Meinke was high bowler for the Rainbow girls with a series of 501. Slaats topped the leading series for the Bend bowlers with a 533.

Bowman Bros. grabbed off a two game victory from the Frazier Roofing Co. Bowman's won the first and third games by fair margins but dropped the second. Courtwright rolled high for the Bowman victory with a series of 440. Sullivan headed the Frazier scoring with a 404 series.

By winning their first game with an edge of five pins, then taking the second by a wide margin the Plum Hollow bowlers managed a two game victory over the Lorene Beauty Shoppe. Cline's 418 series led the Hollow gals and L. Hammerstrom turned in a 418 to lead the Beauty bowlers.

Christos Grocers after losing their first game to the Manhattan Cafe came back to earn a two game victory. Klein was high scorer for the Grocers with a 434 series and Moore's 420 was high for the Cafe team.

## HARRY BOBO GETS OFF THE CANVAS TO KAYO FRANKLIN

Pittsburgh, March 31—(AP)—Harry Bobo, 21-year-old negro heavyweight, joined Billy Conn in a Pittsburgh tandem chasing Champion Joe Louis today as a result of Hammerin' Harry's spectacular, one-round knockout of Lem Franklin.

Harry earned his chance by clambering from the floor last night to knock out the Clevelander in 2:40 of the opening heat of a 10-round bout. Bobo weighed 209½ against Franklin's 196½.

Bobo's feat exploded what Lem intended to be the first start in a comeback after Bob Pastor kayoed him in eight rounds last month while Franklin was riding an astonishing string of triumphs.

Bobo, who wants to be a minister and finds his favorite diversion in the Bible, looked hopeless for the first minute against the wild socking Franklin. He back peddled frantically as Franklin came out swinging a murderous right. But after being dumped on his trousers for a three-count, Bobo shifted sensationally and landed a double salvo of left and right hooks on Lem's chin flooring him for a count of eight. Lem took one more trip to the canvas for a nine count before he went down to stay, his head lolling on the ring apron.

Bobo's next fight probably will be with Ample Abe Simon, Joe Louis' victim last week. The young negro said, however, "I hope they get me Bob Pastor, then I'll fight whomever they sign for me."

## BUDWEISER BOWLING TEAM OF CHICAGO LEADS ABC

Columbus, O., March 31—(AP)—The redoubtable Joe Bodis of Cleveland, holder of the top 10-year average in American Bowling Congress tournaments, rolled 717 last night for second high individual score in five-man team matches.

His games were 186, 264, 267. Leadership in the singles passed to Ray Hultquist of Chicago on his total of 735. Hultquist, 28-year-old telephone company collector, got only nine pins in the opening frame of his third game but knocked off 11 straight strikes to score 267.

The standings:  
Team event:  
Budweiser, Chicago, 3131.  
Schlitz, Milwaukee, 3105.  
Bowling Association, Bakersfield, Calif., 3001.  
Pepsi-Cola, Dayton, 2988.  
Creep Inn No. 1, Cleveland, 2987.

## SECOND MURDER TRIAL

Keytesville, Mo., March 31—(AP)—Dr. William F. Lamance, 35-year-old osteopath, goes on trial tomorrow for the second time, accused of slaying his wife, Ella, whose body was found in a backyard fruit cellar of their home at Laclede, Mo., Aug. 15, 1938.

Lamance was convicted and sentenced to 18 years in prison in April, 1939, but the state supreme court reversed the case and recommended a new trial.

## ON FULL-TIME BASIS

Peoria, Ill., March 31—(AP)—The CIO United Farm Equipment Workers have submitted a plan under which the union would waive Saturday and Sunday overtime, but continue on a five day, 40-hour week basis to allow the huge Caterpillar Tractor Company to turn out war orders on a 24-hour day, seven day week basis.

Australia's summer season occurs during the months of December, January and February.

## Frank Leeper Gets Honorable Mention On All-State Team

Dirksen of Freeport Makes Pat Harmon's First String

Champaign, Ill., March 31—(AP)—A decade in Illinois high school basketball—from Boudreau to Eddie Mann—was summed up today by the 10th annual all-state team chosen by Pat Harmon, sports editor of the Champaign News-Gazette.

Dwight Eddie Mann of Centralia, by making the team for the third year, tied the 1933-34-35 record established by Louis Boudreau of Thornton (Harvey).

Nimble fingered Nate Middleton of Paris, the boy with the great touch on the ball, an honor student and one of the greatest negro players ever to develop in Illinois, was placed at one forward position.

In filling the other forward berth Harmon ran into a complication. Because the team is chosen on an all-season basis, two players whose teams did not get into the state tournament were in the running for top honors. They were Walton (Junior) Kirk of Mt. Vernon and Bill Berberian of Thornton.

By all figuring Harmon got a tie. He polled all coaches who had seen both boys play—and it was still a tie. So both were given first-team rating.

## Dirksen of Freeport

Center-of-the-year in Harmon's reckoning was Gerald Dirksen of Freeport, a left-hander whose good work in the Big Eight Conference was crowned by an outstanding state tournament performance.

The fabulous Eddie Mann proved his versatility by winning selection as a guard. His ability to shoot long and to drive around a defender made him a standout for a guard position, but he could play every spot and did, under Coach A. L. Trout's revolving offense. Eddie Mann scored 834 points in 39 games.

Lowest scorer of the 1942 all-stars but one of the most capable performers was Charles Tourek, from Morton high in Cicero. From his guard spot he excelled in defensive rebounding and directed the Morton floor play.

Pat Harmon's 10th annual All-State high school basketball team:

**FIRST TEAM**  
Nathan Middleton, Paris, forward—Height 5-9½, weight 145, age 17.  
Walton Kirk, Mt. Vernon, forward (tie)—Height 6-1, weight, 170, age 17.

Bill Berberian, Thornton (tie), forward—Height 6-2, weight 185, age 18.  
Gerald Dirksen, Freeport, center—Height, 6-2, weight 190, age 17.

Dwight Eddie Mann, Centralia, guard—Height 6-2, weight 177, age 19.  
Charles Tourek, Morton (Cicero), guard—Height 6-1½, weight, 170, age 17.

Second Team—Forwards, Don Armstrong, Geneseo, and Jim O'Halloran, Leo (Chicago); center, Earl Wood, Wood River; guards, Joe Van Hoorweghe, St. Bede (Peru) and Galen Davis, DuQuoin.

Third team—Forwards, Elmore Elawson, Sheldon, and Jack Eadie, West Frankfort; center, Elmo Hildebrand, Clay City; guards, Perry Wilson, Johnston City, and Louis Elko, Streator.

Honorable Mention—Don Derfler, East St. Louis Catholic; Desi Alberts, East St. Louis; Sam Mouradian, Granite City; Quentin Ehausen, Edwardsville; Bob Dant, Madison; Bob Richter, Collinsville; John Schneider, O'Fallon; Eugene Stein, Troy; Leo Buehler, St. Paul (Highland); John De Vecchio, East St. Louis; Vernon Frost, Collinsville; Ward Just, Greenville; Lewis Wheeler, Monticello; Charles Gross, Tuscola; Jack Radovich, Kewanee.

## TRAINING CAMP BRIEFS

(By The Associated Press)

St. Petersburg, Fla.—Johnny Hopp, the St. Louis Cardinals' utility man extraordinary, is ready for any emergency. He keeps two first basemen's mitts and three outfielder's glove in his lockers.

San Quentin, Calif.—A major league baseball club made its first appearance in San Quentin prison yesterday when Connie Mack's Philadelphia Athletics downed the penitentiary nine, 4 to 1.

Lakeland, Fla.—Famous for years as the club that could outbid but still lose to its opponents, the St. Louis Browns slipped into the rut again yesterday by howling to Brooklyn, 5 to 4, in 11 innings although outbidding the Dodgers, 12 to 9.

El Centro, Calif.—Manager Jimmy Dykes of the Chicago White Sox says it is unlikely that any member of his present 31-man squad will be dropped soon. After games today and tomorrow with the Pittsburgh Pirates the Sox will join the Chicago Cubs for a 10-game march back to the Windy City.

Los Angeles—Lou Stringer and Bog Sturgeon, erstwhile regular keystone combination for the Chicago Cubs who have been playing with the second team the past week, were back with the regulars yesterday. Manager Jimmy Wilson had punished them for their lackadaisical showing earlier in the season.

Police force of New York City is larger than Elre's regular army and the reserves.

## Illinois Natural Gas Co. Included in Probe by Federal Commission

Washington, March 31—(AP)—The Federal Power Commission has included the Illinois Natural Gas Company in its investigation of natural gas rates of the Panhandle Eastern Pipe Line and Michigan Gas Transmission Corporation.

The commission announced this yesterday as hearings in the rate investigation, instituted last May after complaints from Detroit and Wayne county, Mich., were resumed.

The FPC said evidence at earlier hearings had shown that Illinois Natural Gas is a wholly-owned subsidiary of Panhandle and that it purchases gas from the parent firm at several points in Illinois, transports it in interstate commerce and resells it to distributing companies for retail distribution.

The announcement added that attorneys for Panhandle had stated that Illinois Natural Gas is "an operating department" of Panhandle and said they were "disregarding the separate corporate entity of these two companies in this investigation."

FRED MEHLHAUSEN,

C. G. BUCKINGHAM,

CHAS. C. CASE,

LEON W. MILLER.

On motion made by Supervisor Kranov, seconded by Supervisor Wolf, the report be received, approved and placed on file. Carried.

The following request from Fred W. Leake, County Superintendent of Highways, was read to the Board by the Clerk:

March 4, 1942.

TO THE HONORABLE CHAIRMAN AND MEMBERS OF THE LEE COUNTY BOARD OF SUPERVISORS:

Gentlemen:

I have in my charge the sum of One Hundred Forty Four and 57-100 (\$144.57), and would like to procure an order from the County Clerk to turn the same over to the County Treasury into the County Highway fund.

Respectfully submitted,

FRED W. LEAKE,

Co. Supt. of Hwys.

A motion was made by Supervisor Buckingham, seconded by Supervisor Mehlhausen, that the request be granted. Carried.

The following resolution for improvement under the Motor Fuel Tax Law was read to the Board by the Clerk:

(MFT Construction)

STATE OF ILLINOIS

RESOLUTION FOR IMPROVEMENT BY COUNTY UNDER THE MOTOR FUEL TAX LAW

BE IT RESOLVED, by the Board of Supervisors of Lee County, Illinois, that the following described State Aid Route(s) be improved under the Motor Fuel Tax Law, approved March 25, 1929:

State Aid Route(s) 7, beginning at a point near the center of Section 6, T21 N., R. 10 E. of the 4th P. M. and extending along said route in a southerly direction for a distance of approximately 2550 feet; and,

BE IT FURTHER RESOLVED, that the improvement shall consist of a bituminous surface 18 feet

wide with a compacted thickness of 2 inches and shall be designated as Section 18 RS MFT; and,

BE IT FURTHER RESOLVED, that the improvement shall be constructed by contract; and,

BE IT FURTHER RESOLVED, that there is hereby appropriated the sum of Three Thousand Three Hundred Dollars, (\$3,300.00) from the County's allotment of Motor Fuel Tax Funds for the construction of this improvement; and,

BE IT FURTHER RESOLVED, that the Clerk is hereby directed to transmit two (2) certified copies of this resolution to the Department of Public Works and Buildings, Division of Highways, through its District Engineer's office at Dixon, Illinois.

A motion was made by Supervisor Archer, seconded by Supervisor Elmer J. Miller, that the resolution be adopted as read. Carried. Said motion coming on for a roll call vote of the entire board, the Clerk proceeded to call the roll with the result as follows:

Those voting Aye: Supervisors Hemenway, Buckingham, Wagner, Vaupel, Archer, Elmer J. Miller, Sproul, Leon W. Miller, Prescott, Theo. J. Miller, Higby, Mau, Kranov, Willis, Finn, Becker, Wolf, Emmitt, Mehlhausen, Cortright, Kuebel, Webber and Case—23.

Those voting Nay: None.

Thereupon the Chairman declared said motion unanimously carried.

The following resolution for improvement under Motor Fuel Tax Law was read to the Board by the Clerk:

(MFT Construction)

STATE OF ILLINOIS

RESOLUTION FOR IMPROVEMENT BY COUNTY UNDER THE MOTOR FUEL TAX LAW.

BE IT RESOLVED, by the Board of Supervisors of Lee County, Illinois, that the following described State Aid Route(s) be improved under the Motor Fuel Tax Law, approved March 25, 1929:

### Pastor of Sterling Presbyterian Church To Move to Savanna

The Rev. Chester M. Irwin, for the past 26 years pastor of First Presbyterian church in Sterling, announced to his congregation Sunday that he was going to accept the call of First Presbyterian church in Savanna.

He will officially submit his resignation to the local church at its annual meeting April 8. It will become effective when concurred in by the presbyteries of Rock River and Preport, which meet in Fulton, April 13 and in Harvard

on April 20. Rev. Irwin expects to move late in April.

Rev. Irwin is especially anxious to undertake his work at Savanna because of the ordnance depot and officers' training school located there. During World War I, he served as camp pastor for the 34th division at Deming, N. M.

Applications for FHA mortgages on new homes, received in February, numbered 26,547, a gain of 72 percent over February of 1940, and 65 percent over January 1941.

## Report CCC Boys 3,000 Men Signed at Oregon to Be Billeted at Grant for Employment at Ordnance Project

According to C. A. Lindstrom, technical officer of the CCC camp north of Oregon, fifty men from the camp have been sent to Camp Grant to make preparation for billeting the 190 men of the company at the old CCC barracks in the Camp Grant reservation. It is planned to make the transfer within the next three weeks, and the shift probably will mean the abandonment of the Oregon camp. The advance contingent is renovating the barracks that were used at Camp Grant. Maj. Gen. C. A. DeCamp, of the army engineering corps, will direct the soil conservation program at the military camp, which has Don Artists—WFL. The approval of the war department and for which funds have been allotted. He pointed out that there will be one to two years of work for the 190 men. The conservation work will include surface draining of the occupied camp area and a larger program of drainage, grading, seeding and planting in the entire reservation. Capt. Horace Bell, of the quartermaster corps, is commander of the CCC unit which was moved to Oregon from LeRoy two and a half years ago. The unit has been doing conservation work at White Pines Forest state park and soil erosion control work on Ogle county farms. The men quarried stone to be used in conservation work during the winter.

Rangoon, Burma port, ranks third as a British India port. It is exceeded by Calcutta and Bombay, but is said to be the world's leading rice market.

Plans to open a branch office of the U. S. Employment Service in this city to assist in obtaining qualified construction workers for the Green River defense plant south of the city, have been abandoned, Chester W. Hepler, Illinois director for the service, announced today in Chicago. An Associated Press dispatch conveyed the above information today and the local offices of the Associated Trades Council were also advised of the decision. Hepler said the decision followed a special meeting in Dixon, March 26, at which the A. F. L. Dixon Building & Trades Council opposed the plan. He added that it never had been the policy of the employment service to "interfere in any way with the local union's placement activities". An official of the Dixon Building Trades Council stated today that about 3,000 laborers have signed up for employment at the defense plant, and several hundred additional tradesmen. Several additional trades organizations which will be represented during the period of construction of the defense plant will soon open headquarters at the Trades Council office building on Galena avenue in the Laing building. These will include structural steel workers, plumbers and steam fitters, electric and sheet metal workers in addition to the trades already represented at the central headquarters in this city.

# Marvelous Record of American Fliers in Pacific Praised

## Bomber Command Head Says They Put Jap Fliers to Shame

By VERN HAUGLAND

United States Army Headquarters in Australia, Mar. 31—(AP)—Col. Eugene L. Eubank, head of the U. S. bomber command in the Philippines and the Netherlands East Indies, smashed Japanese claims to superior flying ability with a report today that his men shot down 50 enemy pursuit planes in action and sank or seriously damaged 46 transports and 16 warships up to March 1.

The officer gave the first detailed report of bombing operations from the start of the war in the Pacific until the fall of Java, bearing out the previous assertion of Lieut. Gen. George H. Brett, commander of allied air forces in the Pacific, that the Americans had shot down more than three planes to one.

Col. Eubank of Port Arthur, Texas and Albuquerque, N. M., said the Japanese losses he listed did not include numerous planes destroyed on the ground. "Our losses in action were extremely low, especially considering the long range of action," he said at a press conference.

"We lost only two planes through pilot error, mistakes in landing, etc. This is a marvelous record and puts the Japanese flying to shame."

He described the heroic work of the bomber command in the Philippines and the Netherlands East Indies, praising officers and enlisted men alike.

**Is Modest Officer**

The officer did not refer to his own achievements but his name is on the list of many bomber command members mentioned for various awards.

Col. Eubank said the Philippines were not caught unawares by the war. They had been on war alert and ready for enemy operations. A number of missions were carried out Dec. 8 when Clark Field, in the Philippines, was bombed.

The first major American bombing attack on Dec. 10 in the Lingayen Gulf and Vigan area destroyed seven enemy boats, including two warships, and five transports.

The late Capt. Colin Kelly hit a battleship and was shot down on returning to his field.

Others in this action were Maj. Cecil Combs of Arlington, Tex.; Capt. Donald Keiser of San Francisco; Walter Ford, of Albuquerque; James Connolly, of Waco, Tex.; Elmer Parsel, of Macon, Ga.; Edward Bohnaker of Plattville, Wis.; Lieut. S. Earl Tash, of Walla Walla, Wash., and Elliott Vandevanter of Washington, D. C.

"One instance of good work was a raid against the enemy landing party near Legaspi Bay on Luzon island by planes commanded by Lieut. Vandevanter, Capt. Hewitt Wheeler, of Fresno, Calif., and Jack Adams of Andarko, Okla.," said Col. Eubank. "Four enemy fighters were shot down in this encounter, which was in bad weather."

Vandevanter was unable to drop his bombs because he could not find a hole in the clouds near the target but he remained and made several runs until he was able to release bombs effectively.

**Calm Under Fire**

Large enemy fighter forces attacked Adams' plane, damaging it, and Adams was forced to land

on another small island. The plane was strafed on the ground. Adams calmly directed the crew. No one was seriously injured.

The party was not reported for three days. It finally returned three weeks later by native boat, ox cart, automobile, train and civilian airplane.

"We had every form of transport except carrier pigeon—if we had had that we would have eaten it," said one member of the party in the hospital after his return. Wheeler, meanwhile, unable to find a cloud hole, dived below despite fighters and anti-aircraft and dropped bombs. He was attacked immediately by two squadrons of 18 planes and they continued the attack until their ammunition was gone. He skillfully handled the bomber, shot down four enemy planes and definitely hit three others, it was stated.

**400 Miles in Damaged Ship**  
Wheeler and his navigator were the only members of the crew of eight to escape injury. They flew the seriously damaged plane across 400 miles of open ocean and landed safely at their base.

Another grand mission was aimed from the N. E. I. base 1,800 miles against enemy shipping in Davao Bay, he went on. It was led by Maj. Combs. Among those with him were Keiser, Parsel, Connolly, Bohnaker, and Capt. Frank Kutz of Omaha.

They sank a destroyer, scored four hits on a battleship and sank three smaller craft.

This mission was repeated a few days later by the same personnel, plus Capt. Patrick McIntyre of Chicago.

In the most severe weather ever successfully flown through, the daylight attack was a success because of the exceptional flying and determination of these officers, he said. One cruiser was sunk and is still on the bottom of Davao Bay and several smaller boats were hit. Both missions were at such altitude that the enemy fighters were unable to intercept or fire upon the planes.

## Fliers Surveying Illinois Farms in Search for Scrap

Springfield, Ill., March 31—Aviators, connected with the Civil Air Patrol, are now engaged in scanning every inch of land in Illinois from the air in efforts to locate junked farm machinery and automobiles to facilitate its collection for war uses.

Vast quantities of scrap iron are now being assembled on the 212,000 farms in Illinois which will soon be converted into war equipment as a vital contribution to the statewide "Salvage for Victory" program inaugurated by Governor Dwight H. Green, chairman of the Illinois State Council for Defense.

"Various agencies in every county in the state are aiding in the collection of this old metal by cooperating with their respective war boards," Howard Leonard, director of the state department of agriculture, said today, "and this unserviceable material will perform a double purpose as it is not only being transformed into implements of war, but defense stamps and bonds are being purchased with the proceeds."

"An urgent appeal is being made to all rural residents of Illinois to clean fence corners and implements sheds of all old metal and turn such material, much of which has long been unfit for use and not suitable for repairing other equipment, into useful articles to further the war effort."

"It is estimated that the average farm has 500 to 1000 pounds of scrap metal such as old grain binders, discs and harrows, obsolete mechanical corn pickers, steam threshing outfits, kerosene traction engines, horse-drawn gang plows and a large assortment of other discarded equipment."

Banquet Given

A banquet was held at the Paw Paw high school last Friday evening in honor of H. C. Barton who is leaving after this year. Mr. Barton has been a professor and a teacher at the high school for a number of years and the high school students, the high school and grade school faculty gave a bouquet in his honor, and also helped to get the gift for Mr. Barton.

Margaret Cooke, Madelon Gallagher, Audrey Coss, Earl Tyreman and Kermit Knetsch each told about the time when they were in grade school with Mr. Barton and they told some very interesting and complimentary stories about him as a history teacher. A very delicious meal was enjoyed and the menu was mashed potatoes, gravy, meat loaf, carrots, peas, fruit salad, rolls, pies and coffee. The agriculture boys and home economic girls did the serving for the evening. A program was presented with the group singing several songs and the quintet of Andra Monahan, Helen Mead, Madelon Gallagher, Margaret Cooke and Elaine Schlesinger sang "Waterlilies."

C. E. Wick presented the lovely gift of a mirror to Mr. Barton and his many friends wish to extend their best wishes to Mr. Barton in the future.

## Kane, Stephenson Share '41 500-lb. Butterfat Honors

Urbana, Ill.—Stephenson and Kane counties shared top honors in the 1941 500-pound butterfat club, with 67 and 41 cows, respectively, qualifying for membership, according to C. S. Rhode, of the dairy department, University of Illinois College of Agriculture. Lake county had 33 and McHenry county had 30. A total of 557 cows qualified for the honor by producing 500 or more pounds of butterfat in a year.

Kane county also had the highest-producing cow, a purebred Holstein owned by Mooseheart Farm which produced 824 pounds of butterfat and 24,253 pounds of milk. Mooseheart Farm had 16 other cows that produced 500 or more pounds of fat, the largest number from any herd to qualify for the club.

The club was started by the extension service of the agricultural college a number of years ago to give recognition to high producing cows and to demonstrate the worth of good breeding, feeding and management in obtaining profitable milk and butterfat production.

Second high herd in the number of cows qualifying was owned by Rock Creek Farm, Plano, with 14. Two of the cows ranking in fourth and sixth places in production. Runner-up honors in individual production went to a purebred Guernsey owned by Roy Atwood, Ottawa, that produced 808 pounds of butterfat, while a registered Holstein owned by Campton Hills Farm, Wasco, was third with 794 pounds.

Others represented among the first 10 cows were Rock Creek Farm, Kendall association, which had two purebred Guernseys that averaged 793 and 775 pounds; Robert Tate, Vermilion-Edgar, grade Jersey, 760 pounds; Illinois Masonic Home, Moultrie, purebred Holstein, 754; Rol Degner and son, Lee, purebred Holstein, 753; Campton Hills Farm, purebred Holstein, 753, and Hawthorn Farm, Lake No. 1, purebred Holstein, 745 pounds.

Thirteen other cows were cited by Rhode for having produced 500 or more pounds of butterfat during each of the past four years. Rock Creek Farm, Plano, had four of these; Walter Splinter, Winslow, two, and J. H. McCutcheon, Springfield; A. F. Dieckman, Lebanon; Maywood Farm, Hebron; L. D. Seass, Sullivan; Mrs. J. E. Monier, Tiskilwa; Vermilion county Farm, Danville, and Chester McCord, Mewton, one each.

## Gandhi Pays Tribute to Memory of Mills

New Delhi, India, March 31.—(AP)—Mohandas K. Gandhi paid tribute today to the memory of James A. Mills, veteran Associated Press foreign correspondent who died last Friday in California.

"I have pleasant recollections of James Mills' numerous interviews with me," he said.

"I remember his keeping awake the whole night when, in January, 1932, I was arrested in Bombay. I can never forget the brave American breaking down as I was descending the staircase in custody of guardians of the law just after my morning prayer."

# Diving's As Easy As Visiting Cellar and Much Cleaner

By JOHN A. MOROSO, III

Aboard an American Submarine in the Atlantic, March 31—(AP)—The admiral told me that going down in a submarine was just like going down into your cellar at home.

I found it just as easy. The main difference is that the sub is a darn sight cleaner.

Sailing along 140 feet below the white-capped waters is almost like nothing at all. The fearful things I had heard about submarines evaporated rapidly as I watched the teamwork of an American crew send the depth gauge spinning slowly around.

There was no
